(Tejas Tapala Will Be Referred To As “Jay” As His Discord Display At The Time Of Meeting Them Was “Jay” Now Presently Santino (User: the) and chirag singh gill as Envix (user: d3lir1ous._) for the same reason.)

Hello, Me (Tejas Tapala) and my friend (chirag singh gill) Have prepared a second edition of our original cyber-bullying report document. For the past few months, (2025, October 28) A group of people on discord most preferably called “THE TXC” (A discord vigilante group Tejas Tapala made in february 2023 which tejas tapala quit.) Have been harassing us, threatening to leak our information and call my uncle. We have prepared screenshots but they harassed us into getting rid of document 1, However, We have saved the screenshots and acquired new information about them harassing me, Tejas Tapala and calling my mother and chirag’s vulgar words and threatening to call chirag’s mother and call her words. I have a screen-recording of them calling my uncle, admitting to drawing pornography of me tejas and my cousin (who is about 6 years old) and my uncle. They have reset chirag’s phone once. During 2023, We had befriended a person named Karen Shammah also known as REN. Midway of 2024-2025 periods, Ren left the group because of certain arguments regarding “Zuro” a guy who joined TXC later and befriended ren. Because of this grudge, They doxxed ren and sent her information in their discord group chat DM, Which we possess screenshots of. They frequently change their discord users; But right now, as of 6/23/2026, They go as “Chiro” “Sertan/Hashira” “Marble/Shaurya” “Clyde”. Clyde is a british discord bot developer who resides in sri lanka, Sertan/Hashira is a

native indian born in rajasthan living in Noida, Delhi. Marble/Shaurya is an american born recently moved to india person, He is a primary person of this as he did most of the stuff. Early 2024, Preferably 2024 January 17, Chiro (AKA RIAD SALEH MUSA) and Linx (Thang Nguyen) persuaded and blackmailed Tejas into revealing pictures of his mother who Chiro called “Homer Simpson but with face hair” and much more vulgar words. During all this, Tejas was 9 years old (Currently 12) And he felt emotionally pressured as they were his only friends. After that, they made fun of him and her. During early 2025, Tejas had to leave TXC because his mother requested as they were making fun of Sanatana Dharma by posting NSFW Pictures. We do not possess explicit screenshots of the Sanatana dharma one (Update on 7/9/2026 3:37 PM, we found them saying stuff about sanatana dharma later on in other tabs.) but we possess screenshots of them admitting to Cyber-Bullying, Trying to launch false cases on me for stuff they forced me to do for TXC. Now, chirag and I will present the screenshots.

Their discord users as of 6/23/2026 are: marblestorm. , isentmyself , crxngl , arcane_2112, 4n5vc (sertans 2nd acc).

Summary

This summary tab is after every documentation and information collecting is over, As of writing this, its 8:09 PM, 8/13/2026. This includes Tab Summaries and Screenshots

TAB SUMMARY

Introduction

Self explanatory, it is a short messy summary of whatever's happening along with the names of the bullies.

Involvement

It is basically what whoever did what.

Clarification (Sub-tab of involvement.)

Requesting the reader not to contact anyone and if any evidence in this is wiped afterwards it means it's real.

Usernames

The list of contacts we have on them. This includes IP addresses and GMails which chiro & Sertan leaked during arguments.

Evidence

The first batch of evidence we gathered. This includes the original Doxx they leaked of ren in the group chat.

Old Documents & Old Documents Continuation

They are 2 separate tabs, but i mixed them. They involve the original cyber-bullying case from october of 2025 alongside another unnamed victim.

Old Documents RN

Sub-tab of Old Documents Continuation, it shows how the old document will pop up now if you opened it.

Continuation

Nothing new. Just some old texts after the original document was scrapped

Extra Evidence

2 video recordings of sertan using self bots on camera.

Ranting

Small messy summary about how it started.

Blackmail

This is one of the first viable proof that marblestorm is making derogatory accusations alongside generating sexualized content of a photo from when i was 9. (Page 17 for the first porn drawing they made, Page 9 for blaming belu and falsely trying to defame me, Page 22 for threatening to make porn drawings, Page 23-24 of sertan and marble talking about nude sites and making porn of children as a talent, Page 39 for the first AI sexualised image they made of me.)

Cont. Ranting

A tab which i ctrl x'ed from the original ranting tab as it didnt pass our organizing rules (Way too messy in broad terms)

3/2026 Evidence

That was when they started to plan getting back with me alongside terminating my youtube channel (Which they didn't)

Recent

This tab was from 30th of june, roughly a week after we made this document. It is just instagram bullying on me and harassing my uncle and my cousin.

Amethyst

It is just constant bullying and planning, Very messy tab. The document quality changes here onwards. This tab also contains chiro learning how to “hack"

Influential

Proof of linx influencing chiro and everyone in TXC to become cyber-bullies and another screenshot proving TXC’s existence

What is OSINT?

Explaining osint.

How they get info

Explaining their method of getting information

How to evade them?

A brief summary on what to avoid

TXC Lore (Full)

This contains the entire lore of txc and how everything started happening. Though it is not the most accurate as TXC only lasted 2023-2025.

Sertan Luring Envix

This tab showcases our good ol’ sertan luring envix AKA chirag into logging into a google account from his mother’s phone to reset it.

Vermax (new txc)

This was their version of txc after i had left to take revenge on me. They also use this server as a storage for info, nudes, etc etc etc.

Belayu

Who is belu and what happened etc.

GC stuff

This tab shows what was happening in the gc and has a lot of information on chiro defaming hinduism and asking for nudes from me clearly knowing im 12.

Business?

This tab shows chiro trying to make a business by faking vouches by asking me & envix to fake something for him.

Resurgence

This is a server which sertan owns, i tried to investigate it and all i found were bots and alts.

Threatens, Doxx', Etc

This tab has screenshots from my phone which chiro admits to doing marijuana, Sertan admitting to using nitro without paying and extorting.

Modern day

This is just sertan admitting to losing his CP files.

Endgame, Finale.

Some stuff i wrote as the journey was ending.

Biting Bullets

More cyber-crimes.

Dusted And Crazy

Sertan Marble Chiro making fun of hinduism and me, and trying to sell followers.

Resist, Rebel, Rebuild.

This is when chiro started making CRAZY threats. Alongwith admitting to ejaculating to CP.

Back At It

Just a 5-Page tab about sertan’s burner account.

Belayu, Belayu!

Proof of them posting belu on tiktok alongside me trying to contact him but failing.

Some Extra Stuff

Old april screenshots.

2024 Group Chat

This was when chiro admit to actual influence of drugs and made fun of hinduism by posting hindu porn.

It Was The Phone

In this absolute 80-Page behemoth of a tab, marble admit to genuinely despising me, threatening me and sending me actual death threats, threatening to post my info on the dark web, and a bunch of stuff.

Just Wont Stop

The final 30 pages of them harassing me. This is when the document ends and goes to “End Of The Line” Tab as a farewell.

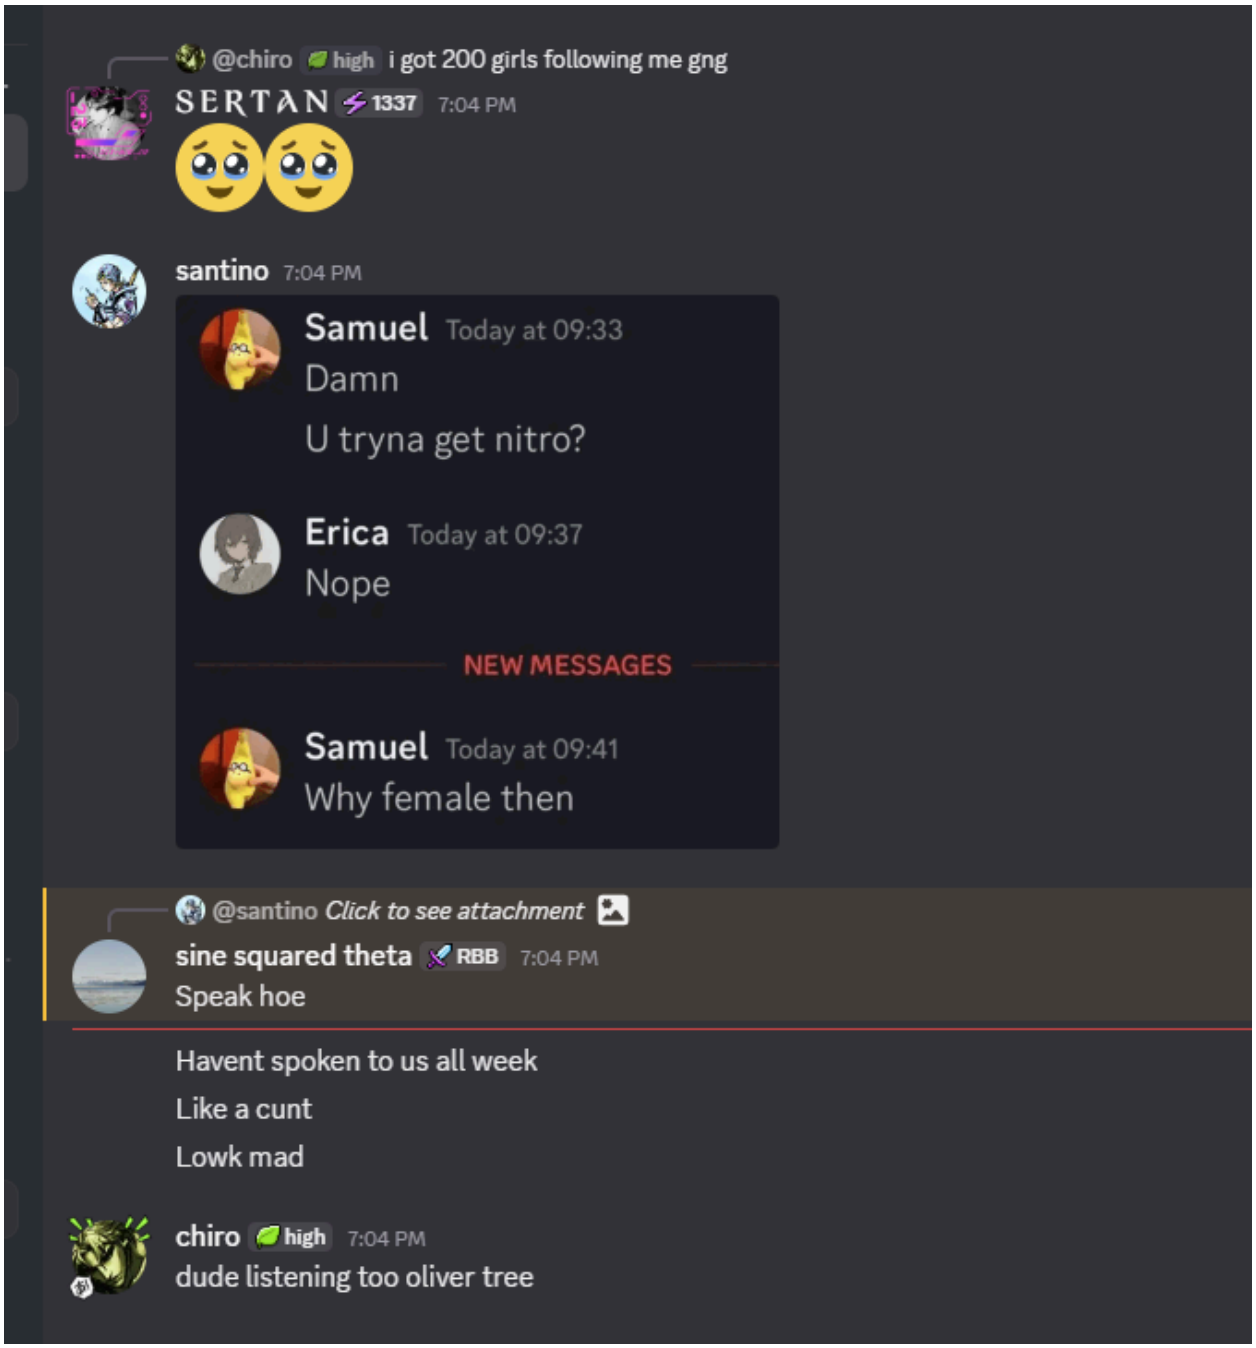
In here, they’re making fun of my face and saying vulgar stuff. (translation: aesthetic get fucked
Marble: aesthetics mothers v*gina)



Here, tejas sent memes in the discord group chat which he was in for a bit of time til they kicked him out, during that short period, Tejas gathered screenshots of the stuff they were saying.

In this one, tejas is said saying “me and my wife” with a heart emoji, replying to a previous meme gif. To which chiro said stuff i can not write.

In this one, Tejas says “wrong one” contexting to the wrong gif he sent, and replied “why ido i keep waking up?” to another meme of chiro, and chiro replied to tejas saying “[death] yourself [slur]” and marble said “kick this telugu squidward”. Not that insulting but did make me feel a bit sad.

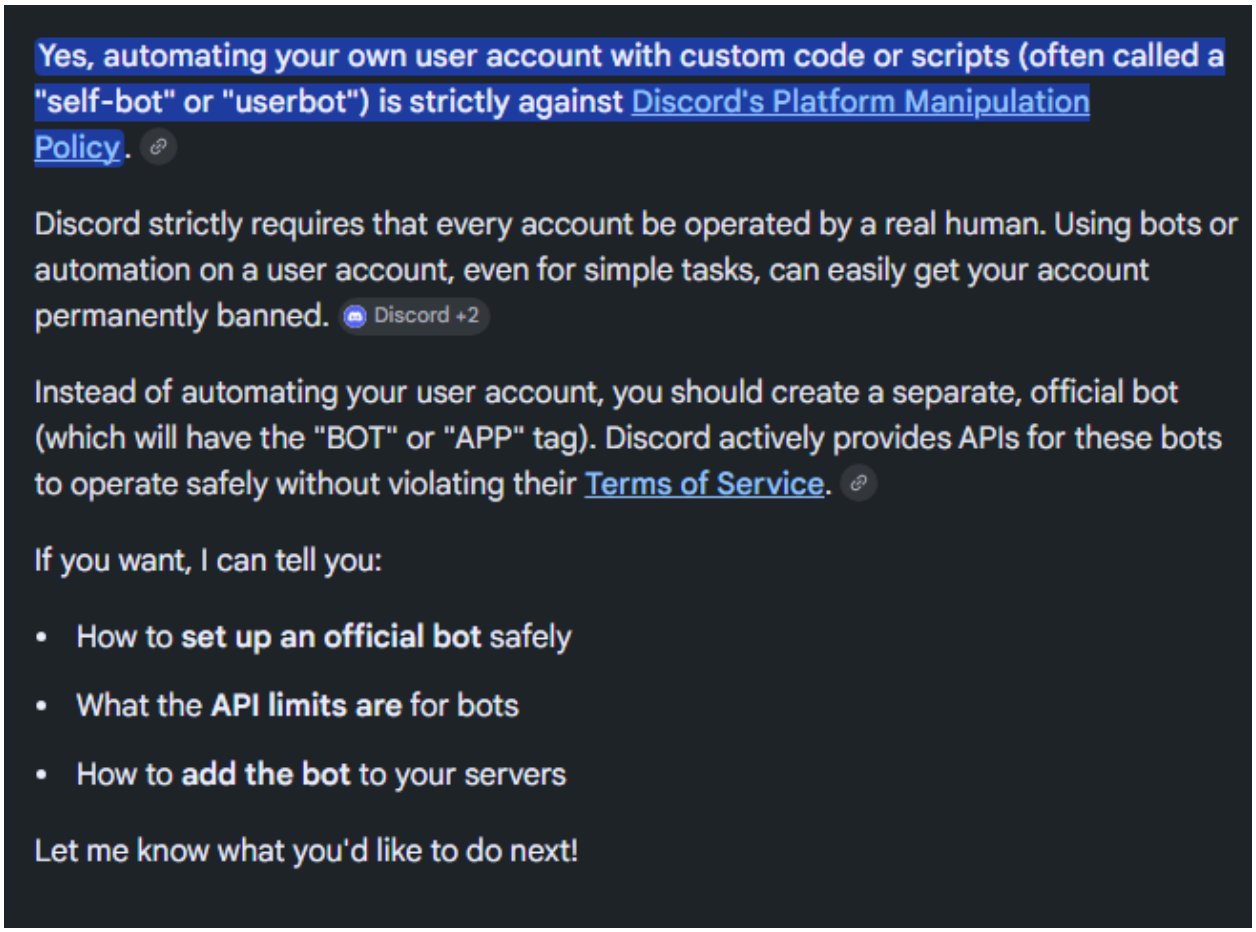
And one more thing, On discord, You can’t use bots on your own account. Like u can’t make a bot that fully operates on YOUR discord account as provided information by Gemini AI.



Yes, automating your own user account with custom code or scripts (often called a "self-bot" or "userbot") is strictly against Discord's Platform Manipulation Policy.
Discord strictly requires that every account be operated by a real human. Using bots or automation on a user account, even for simple tasks, can easily get your account permanently banned. Discord +2
Instead of automating your user account, you should create a separate, official bot (which will have the "BOT" or "APP" tag). Discord actively provides APIs for these bots to operate safely without violating their Terms of Service.
If you want, I can tell you:
How to set up an official bot safely
What the API limits are for bots
How to add the bot to your servers
Let me know what you'd like to do next!

But in one of the screenshots earlier, Sertan spam pings tejas with a bunch of insults using one of these automated bots. Which he confessed to when provoked by tejas.

" DOCUMENT FOR REPORTING CYBERBULLYING

All screenshots are provided by envix and jay on 27th october 2025.

Hi, my name is envix, i have compiled this document with me and my friend, jay

My friend has been on discord for almost four years, i have been on discord for 1 year,

We were getting threatened by three people, they were saying that they were about to reveal my personal information, and were bullying us for the past 2-3 weeks, we have tried everything in our power to stop them but they wont, that's why we have decided to post this on reddit to help us

The bully's users on discord.com are (2025 October)

.nightblade_ (known as xsaz, chiro on discord.com)
isentmyself (known as clyde on discord.com)
marblestorm. (known as marble on discord.com)

Screenshots of them abusing us in a group dm

OUR USERS ON DISCORD ARE
d3lir1ous._ (known as envix)
- ogsantino (known as jay mostly)

(the harassers are frequently changing their profiles. Marbles display profile is now cubic formula.)

One of the said harassers, nightblade has been threatening to suicide if we dont forgive him, before that he revealed marblestorm orchestrated this entire scenario.
We dont expect him to be arrested, or anything. We want justice for what we faced and we dont want any other child, teenager, adult to feel the neglect we felt.

WE DO NOT SEEK ANY COMPENSATION, WE JUST SEEK JUSTICE AS WE REQUEST THEM TO BE FAIRLY WARNED AND KEPT A CLOSE EYE ON.

This whole thing is a letter from victims of negligence and unfair discrimination as children,
We light-heartedly request justice, written by 11 y/oTejas Tapala known as Nico/Santino/Jay and 12 y/o Chirag Known as Envix.

****All screenshots with maroon background provided by Chirag. Tejas' friend display name for chirag was "Brother".***

r/bullying, we got immense support

from everyone. The case had been handled by authorities and a couple people helped us. We are intensely and truly touched by y'alls support, as children in this world built by harassing, abusing, bullying, we got both sides of the stick. I am truly grateful and happy that i was encouraged to stand up for myself and envix. Sincerely, Jay.

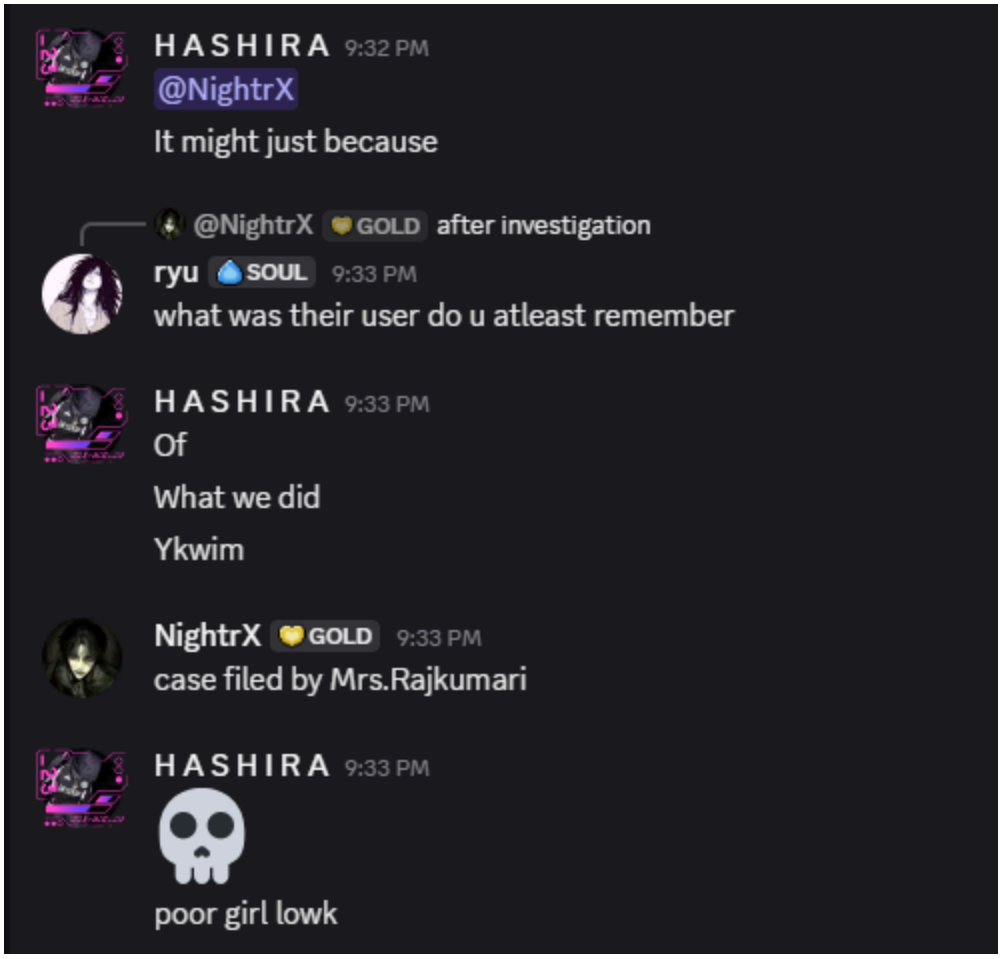
We just lied about the situation and got it out asap.

Continuation



I, jay (ryu) spoke to hashira and he made a discord group dm with nightblade. As i was gonna warn nightblade tht his life is gonna change in the next few days and he should really stop all this stuff and if he did i will take back my charges. He mentioned something about “What Do You Mean? The police literally investigated us last night.”

I was confused, i asked hashira what was happening and he said someone called them and asked them questions. I convinced them to elaborate and told them i wouldnt snitch which i definitely will to law and justice, they had forced a girl into self harm. Im unsure about the reason why it happened or what they did but they seemed pretty confident in it. I thought they were lying at first because i havent filed the case yet and he brung up my moms name again through doxxing and such. I was angry but i held it back and asked them to elaborate more.

As you can see, they admitted to everything and even threatened to “Cook” the persons brother, this whole thing is a mess and its ruined my life and took a drastic toll on my mental health.

FOR THE 100TH TIME, PLEASE I BEG YOU WITH MY HEART TO SPREAD AWARENESS ABOUT THESE CREEPS AND I WANT YOU TO BE SAFE, YOUR SIBLINGS PARENTS FRIENDS AND EVERYONE TO BE SAFE. WE HAD

SUFFERED ENOUGH AND WE DONT WANT OTHERS TO LOOSE 3 YEARS OF THEIR LIFE TO NEGLIGENCE AND CYBER-BULLYING.

If you really, REALLY take this matter seriously, spread awareness. To youtubers or if youre a youtuber yourself cover this. In the meanwhile when i get everything prepared for the case, i want the internet to unite for child safety.

WE, As young people were exposed to such horrific and bad environments as children as we got on discord without knowing whats ahead, keep your siblings and younger friends under 13-17 safe by not letting them on discord and supervising

them as a guardian. This is more of a letter and cry to save younger and other people that have suffered worse than us.

I have spoken enough, now it's ***your*** turn.

Spread my message if you really care and save another child safety online.

UPDATE: 5/06/2026

By envix (username d3lir1ous._)

In the past months, jay (tejas tapala) (or current username on discord ogsantino) had gotten everything patched up with chiro (current username on discord crxngl) and hashira/sertan (current username on discord arcanez._2112), however. jay is suspecting that they were plotting something against him, it is also confirmed that jay got his phone reset by chiro. Since chiro had access to jays google account, he switched to his account, and reset his device using find hub, this has also happened to envix (me) since he also had access to my account and used it to reset the account

Here are some screenshots from dms in a group chat between sertan and chiro

You can see that sertan has admitted to drawing porn of jay (tejas) and his family (proof of possession of CSAM in tab “3/2026 Evidence” page 12.)

You now might get on how serious this could get if we were to take this to court, and they still dont realise this yet and keep doing these activities calling it “tomfoolery”. They were also disrespecting the sanatan dharma (or hinduism), while jay (tejas) might have all of the screenshots deleted, ***i dont, because im two steps ahead, and since they dont have any contact with me, they cant blackmail me at all. And i think jay (tejas) forgot to mention about his ex, cupid. Who was also involved in all of this and broke up with jay (tejas) and was helping sertan and chiro, all the screenshots here are gonna be provided by me.*** (rixo is chiro’s old account) ***and linx was also actively disrespecting our religion. Yet again use your own brain because this stuff is beyond what i can comprehend.

Context: before marblestorm was their friend and ally, they had a fight. It was over roblox accounts and Linx & Chiro started insulting hinduism to get their way. There is also recent screenshots of them saying stuff like "Python is naagraj broo". It will be provided soon.

Extra Evidence

Hey there, chirag here, so tejas here actually GOT SERTAN TO USE SELFBOT ON CAMERA. (Tejas reporting: I made small talk, and during that he used self bot which we captured as i screenshared our conversation.) so i screen recorded it [vid might be low quality, please bear with us]

Here are the links to the vids below, you cant access them unless you have the link(s) since they are unlisted,

Vid 1 . (Has a slur, excuse me for saying the n word..)

Vid 2 . (Chirag's footage cut off on the first one. And the humour is a tad crude)

Excuse my talking i was just too excited seeing him get exposed on camera lol

Tejas reporting, in tab 6 (Tejas reporting on 8/10/2026 8:47 AM i have no idea which tab this is now) he also confessed to buying discord accounts.
(chirag reporting: not only is he breaking several laws, but he's also breaking the discord TOS! [as if breaking the law wasnt enough.]) There have been countless and numerous times Me, Tejas had been called their.. You know what, I can't even say it. It is only up until now that me and chirag started documenting this. (chirag reporting: they used to call him their… slave, if you know what i mean.)

Ranting

In the february of 2023, tejas (whose user was sriman at the moment) was talking on a discord server, and i, tejas befriended chiro. The first anomaly,

THE START

So on that night, we formed a team. “TXC” Which first variant was “TØX!C” as we appeared toxic, at the beginning, it was a vigilante team. We would go on servers, And “Roast” people who were being:

Bullies
Homophobic
Religionphobic
Misogynistic

A day after that, a common recurring person, REN joined. Slowly, on one of our “Vigilante Missions” We introduced linx, a mutual of a person named hex. Linx at the beginning, was nothing but a guy who would help us. Slowly, he blended into the group. He picked up a new name, Kaiz, And later on 2025, fxia2. But with the addition of linx, things changed. Chiro, started being everything we were against. Religionphobic, Misogynistic, Homophobic, and most of all: a bully. Ren played a prime factor in influencing chiro, and vice versa for each other. They each meant the world for each other, And slowly, ren got influenced by linx. Which was the start of the impending doom.

THE RISE

Ren started having a tendency to insult and “Roast” innocent people outside our vigilante missions, Making group chats for the sole purpose of bullying. As ren was chiro’s most close friend, The dopamine of making others sad got to him. And after a bit, they demanded me into giving the owner and leadership of TXC to chiro, which he entirely repurposed. He started making others send pornography and gore in servers, Raiding servers, and during this state, The religionphobia began. On the december of 2023, Gourav, a previous member of TXC made contact. In that, he sent us a chill server link. In which we would meet sertan, a key member in this documentation of despair.

THE CHANGE

Temporarily, tejas got leadership again. It was because chiro wanted to make his own version. And in that, tejas made a server for txc. In said server, Ren would befriend ZURO. The guy behind the reason of ren’s leaving and departure permanently from the group. Zuro and chiro and sertan had conflicts, which led to zuros exiling, which ren followed.

MARBLE

The man behind most pornography of the children and us, The double agent who would stir up group conflicts. Tejas met him initially in discord.gg/hindu, They were good friends and marble

gave tejas his roblox account rightfully with consent, which evidence is not shown right now because during this period him and chiro became friends and spam reported tejas' account in which they made the agreement, However, over this roblox account, the entire group got greedy. Marble confronted everyone but kaiz and chiro started saying vile stuff about hinduism as marble (at the time) was pretending to be a bhakt. The evidence is shown in tab 5 (Continuation). After a while, they truced. After a few months of this, Tejas met chirag while chirag was touring telangana, tejas' birth state. They became pretty good friends and tejas added chirag in the group chat, Until.. They started bullying chirag like tejas, Told him to go to.. This website (NEVER CLICK IT. ITS GORE) And sertan manipulated him into resetting his phone. After that, the rest is history.

That's about all i can remember, I will update this tab whenever i can remember more.

Hey guys, tejas reporting. I was making a talent show for my story and again these people are persuading me and blackmailing me to let them in or else theyll spread false rumours on facebook. And also admitting to more possession of more CSAM of me. Since this doc is getting longer, ill present in another tab

Blackmail

Hey Yall! Tejas reporting, this is the tab where i present them blackmailing. (chirag here: i have changed my discord display name from “envix” to “raiken”)

let it begin.

BHAI HAS HAS KE LOT POT VEDIO COMEDY VEDIO
FUNNIEST PRANK
Btw yesterday i stole OSINT tool from a clan now I just need to learn how to use it
@chiro high BHAI HAS HAS KE LOT POT VEDIO COMEDY VEDIO
has ke pregnant

The arabic characters is sertan's catfish alt, in here he says that he got hold of an OSINT tool from a "clan" (Tejas reporting, Clans are discord groups for doxxing, stalking, and internet illegal businesses.) and is now learning it, OSINT is a tool frequently used by doxxers to dox you and leak your personal info (such as your house address, family name & history, internet protocol, etc.) They also admit to using websites such as whatever they are hiding to generate nudes of people and threathening to leak (as shown in earlier examples) if not done by their rule.(raiken (chirag) here, so i actually know some of the sites they are using, and ive also learnt that they are probably paying for these sites, such sites are https://undresswith.ai/ and for partial nudity photos they could also be using grok.com.) I was quick to screenshot on everything, they said they have a counter case which we will see in court if we were ever to file.

Just a quick word: If this were to happen to your friend/sibling, how would you react? These criminals are targeting all children that don't do as they say and even if they didnt do anything, they will still strike. This document is for 2 purposes:

Justice: Many children like us are being actively bullied but they can’t speak to anybody, most of these children bottle it or do something stupid like SH. These things happen ALL over the world, we can’t put a stop to it but we can end most of it.

The Horrors Of The Internet: As you can see, these people have no fear. They bully anyone because they think nothing will happen, they will go to intense extents; No consequences, nothing..

So, what i’m.. No, WE are trying to say is:
Please protect your children, If you keep them away from devices, Teach them how to trust the right people, and monitor them without being too creepy.. There will be less cases like us, i personally (Tejas) am a writer, animator. All of this has severely broken me and chirag. Take this case as an example to what the world does. This has made me and chirag intensely

depressed along with the events ongoing on our lives as these unroll. (chirag here, while all of this was happening, my father was in the hospital for a surgery requiring for his colon to be removed, about 85% of it was removed and he was given an ileostomy, and when he had his second surgery for his colon resection, he struggled hard, i was suicidal at that time but i remembered that i have a family that loves me. But they didnt stop, they even threatened me, joked about how my father couldnt walk properly, saying that he runs on 2 cores and 4 threads. It had deeply disturbed me, eventually I developed derealization and anxiety. I have passed through that phase but i dont want to make contact with them again since i know that if i do, they will do all of these things again. Please keep your sibling/child/friend aware of what could happen on the internet and the dangers of it.) (Tejas again, its my side of the story now. Growing up, i never had a father. We had financial issues but my mother managed to

educate me despite our issues, While meeting these people, I was very dumb and foolish. I trusted anyone that befriended me and told them everything, when i met these people, i thought they were like everyone else. I thought they were kind and supportive, But slowly.. They started using my own issues against me. Calling me all sorts of slurs, names, insults, and even my family. Every single day, im afraid. I feel threathened, like im being hunted. I cant post myself on the internet without being slandered or critizied, I trusted them. Take this document as a magnificent letter on how degenerate, stupid, disgusting people can be.

Even on my birthday, they planned.

Marble changed his account as his main got limited; he keeps changing user and display. Right now, its the one with the pfp of Benjamin Netanyahu. (chirag here: i also got hold of an old gc where sertan and chiro were saying “stuff” about me with screenshots which i will provide after tejas finishes)

They keep saying stuff about my grandma. Keep in mind, my grandma has been critically injured recently. Also.. the chinese [word] they talked about is my ex, cupid. Who plays a recurring role sometimes. Mahi is his (Chiro's) crush. They frequently make fun of chiro and say he has a crush on my ex girlfriend Cupid, she's burmese.

The first document we made wasn't as long as this and i posted in reddit. They think it failed and i only posted to reddit but by the time you're reading this its gonna be out everywhere.

One more thing to note, There was a previous person named "Sine" AKA Ali, who was ren's ex. He is involved a lot in envix being bullied and me too.

One more thing. This is VERY recent.

Sine was cyberbullying me back in late 24, although i dont have enough screenshots i do have ***one. This was basically after an argument between sertan chiro and tejas, (tejas at that time was good friends with them.) we were arguing so i left and then i went to sine to tell them to leave me alone, so he started saying stuff which i will show here.***

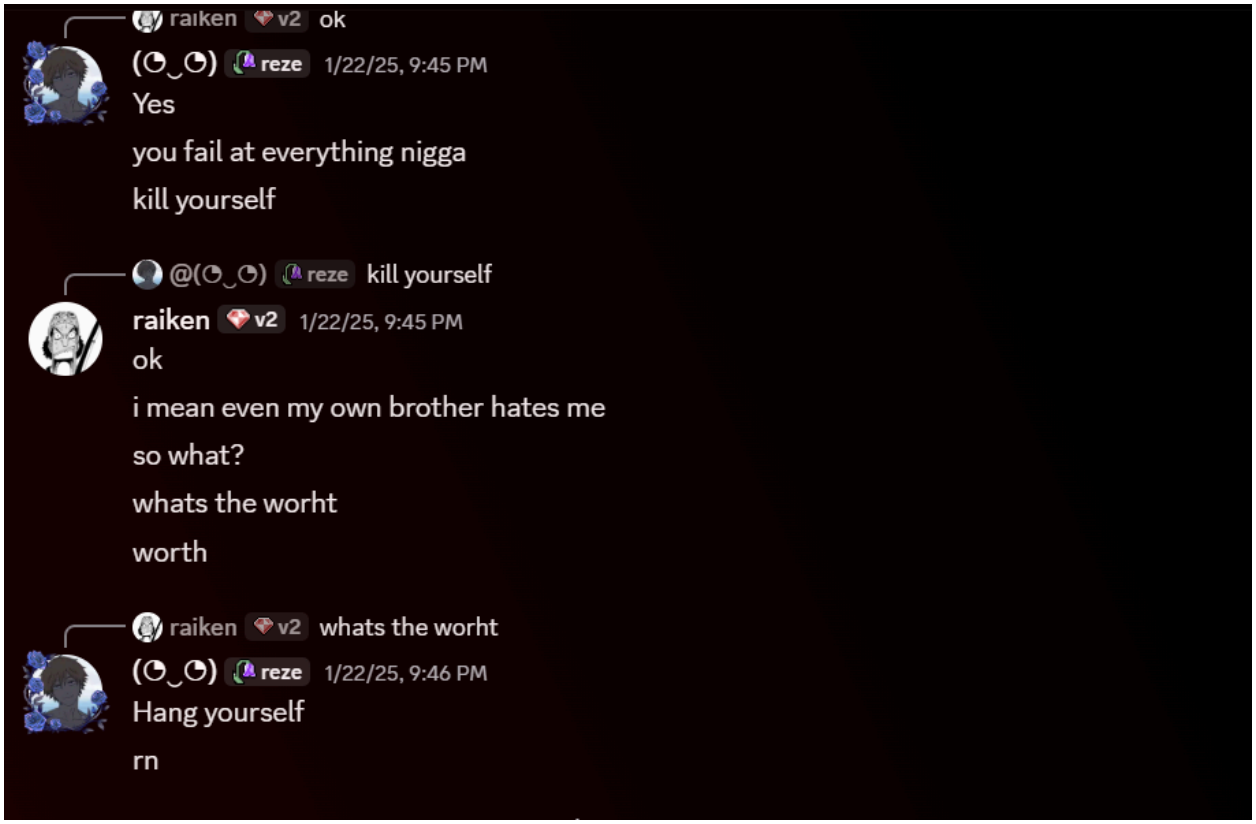
Here is sine giving me death threats and also saying that i live in mumbai at an attempted way to scare me (practically everyone knows im in mumbai and when i received this message i genuinely started wheezing to death at how corny it was)



This whole fiasco was happening while my father was in the hospital, my father had also gotten a cardiac arrest on february 3rd, which (of course) scarred me, (he survived) and this just adds up to my whole list of trauma.

But that time has passed, now im here for revenge running on pure courage and the fuel of pain.

Right now, we're playing the slow game. We're gonna try to run a deep search in their main group, "Chiro Uchiha", as of 7/3/2026. We're gonna try to find proofs.

Hey guys, tejas reporting,
10:20 PM
7/11/2026

So, envix tried to alert landon, some sort of youtuber i dont know. And the response we got from their staff is…

Ridiculous.

A guy named jamal, user: erimguac, was literally taking our stuff so unseriously.. Just see for yourself.

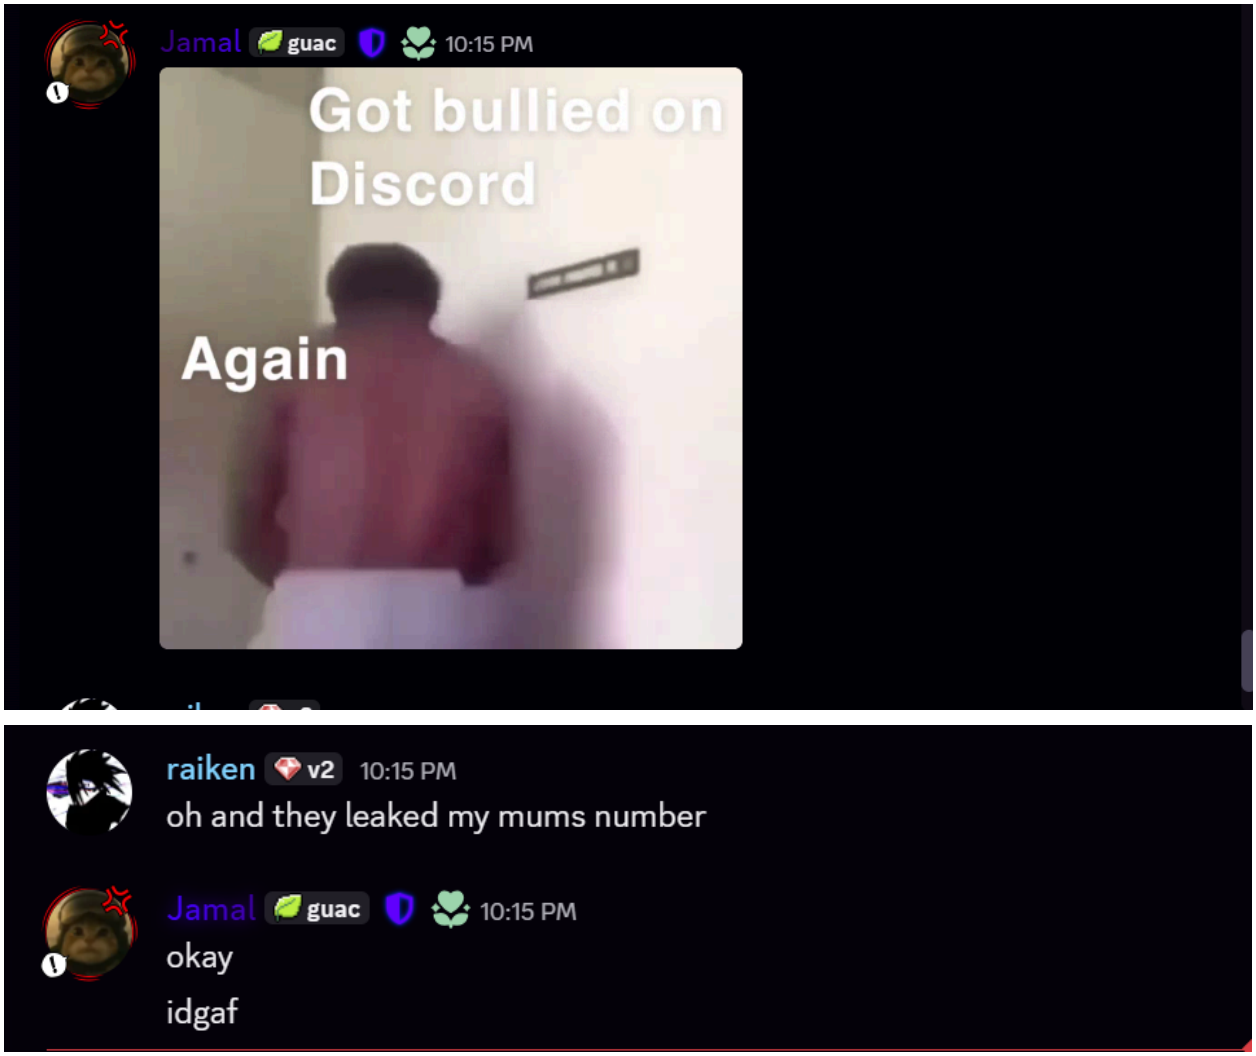
> @Jamal guac just block them

raiken v2 10:15 PM
they have alts

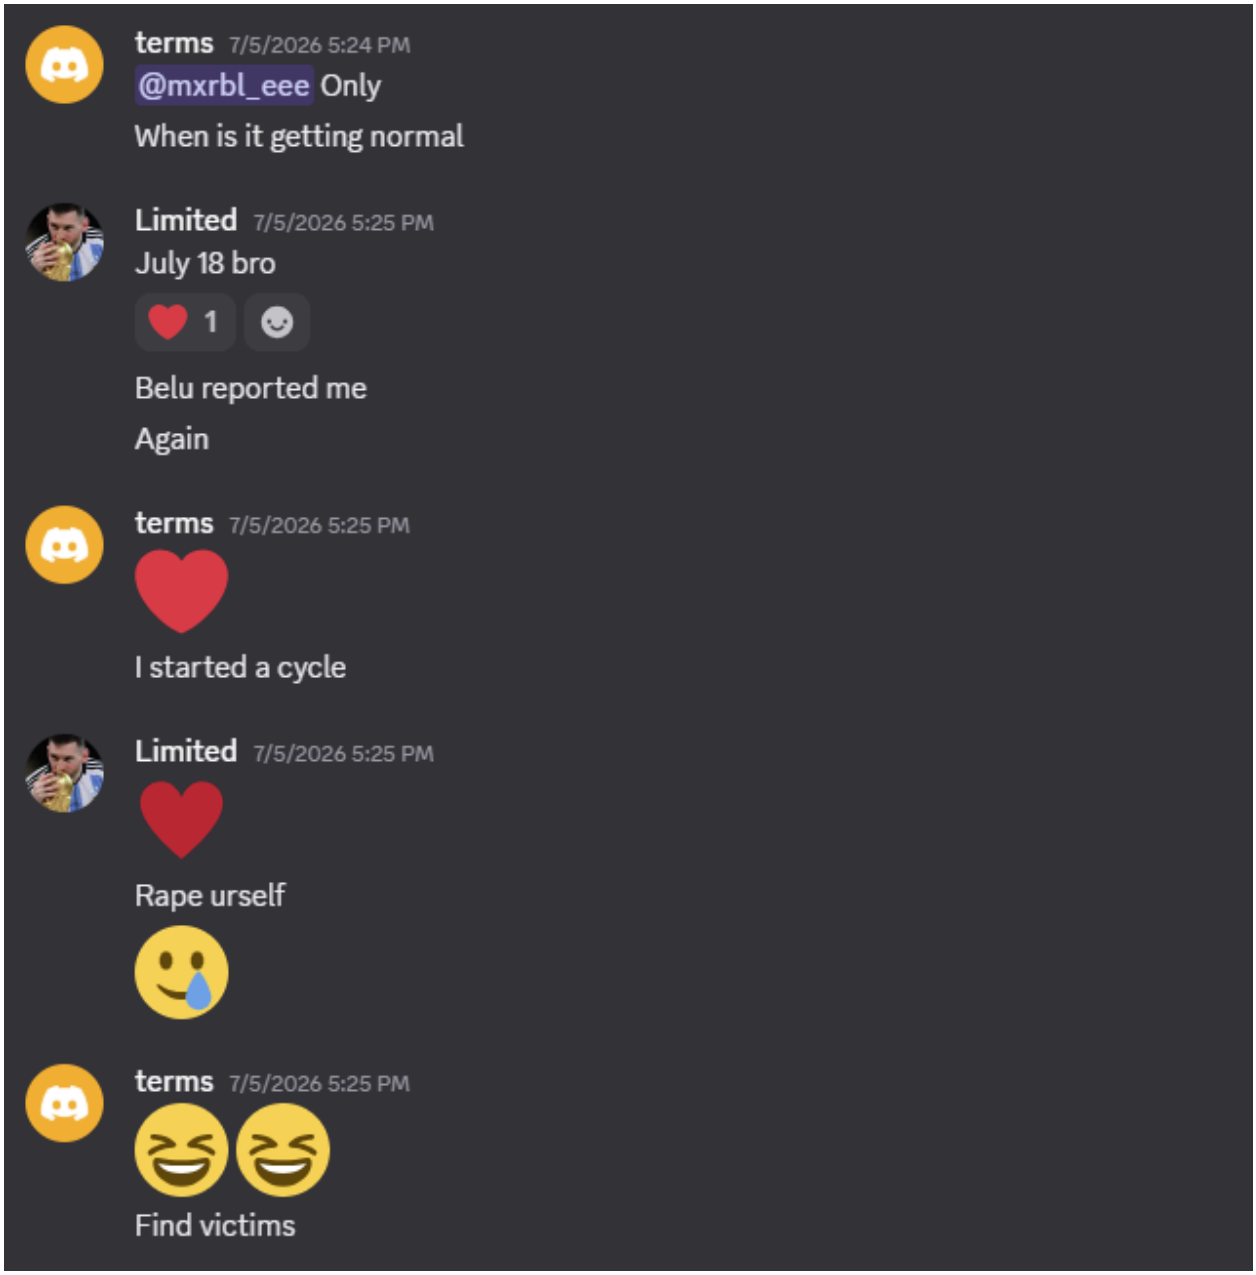


So these people think that everytime someone gets cyberbullied all they need to do is “block them” and not even care about the situation? There is AI CSAM of us being distributed like mint cookies and they think its just an itty bitty thing when our INFORMATION could be sold as sertan got a hold of an OSINT tool, and they have pretty much a shit ton of media on me. They even have me doing stuff under their influence and friendship (when we used to bully bullies in 2023 because of the TXC group) if the internet dosent take action, we’re screwed. Our families are in critical situations and if we report this case to the POLICE instead of the INTERNET it’ll be salt in the wound. Please take this into actual consideration instead of making us be rolled over and smoked by these people (Chiro, sertan, clyde, etc etc) forever.

(chirag here: it’s pretty pointless but i just wanted to put this to give an example of how the world treats us like we’re some type of coward. What that guy doesnt know is that if we block sertan or chiro, they will DEFINITELY try something on us. So we’re in a deadlock, even though i blocked sertan and chiro, tejas hasnt.)

Tejas and chirag signing off, 10:28 PM, 7/11/2026

Tejas reporting, 12:01 PM 7/12/2026, I think i showed these before but a recurring victim of theirs, Belu A.K.A Belayu, has apperantly fought back and reported marble's discord account.



The terms guy i think is chiro and sertans shared account, and one more thing of marble

admitting.

And one more 2023 evidence which proves linx was the influential starting point for txc's downfall: (continuing in another tab as this one hit limit)

Update on 7/19/2026, mistake on my end. It didnt hit limit, it just was too big.

A Linx Today at 18:53
Yes
This is from my grandmothers phone in 2023, S is me, ofc. I heard that middle rumour from our driver at that time. But the point is:

This proves linx started it all as i stated in the ranting tab. Before my grandmother used this phone, i used to use it. So i have a lot of screenshots on TXC before linx's total takeover in 2024. Also, one more proof about txc's existence is in 2023 i used the carl bots test feature.

This is unwavered proof that toxic existed. Thanks to me documenting every single thing back in 2023 like a hyper observant being. (I would usually do it either randomly or to show chiro and the gang how shit worked. I trusted them with my life.)

What is OSINT?

IDK if the spelling for OSINT is right, envix explained this before but,

An OSINT tool is a hacking tool used by the government and hackers especially in discord, it can take numbers or any sort of information and run a background check finding the inputs:

Adhaar

Address

Full name

E-Mail (chirag here: the full form of OSINT is Open Source Intelligence, which will dig the whole internet to match info given by the user to info on the internet.)

Since the numbers they have of me dont use my identity, it is a miracle. Chiro tried gaslighting me into giving envix's number earlier too!

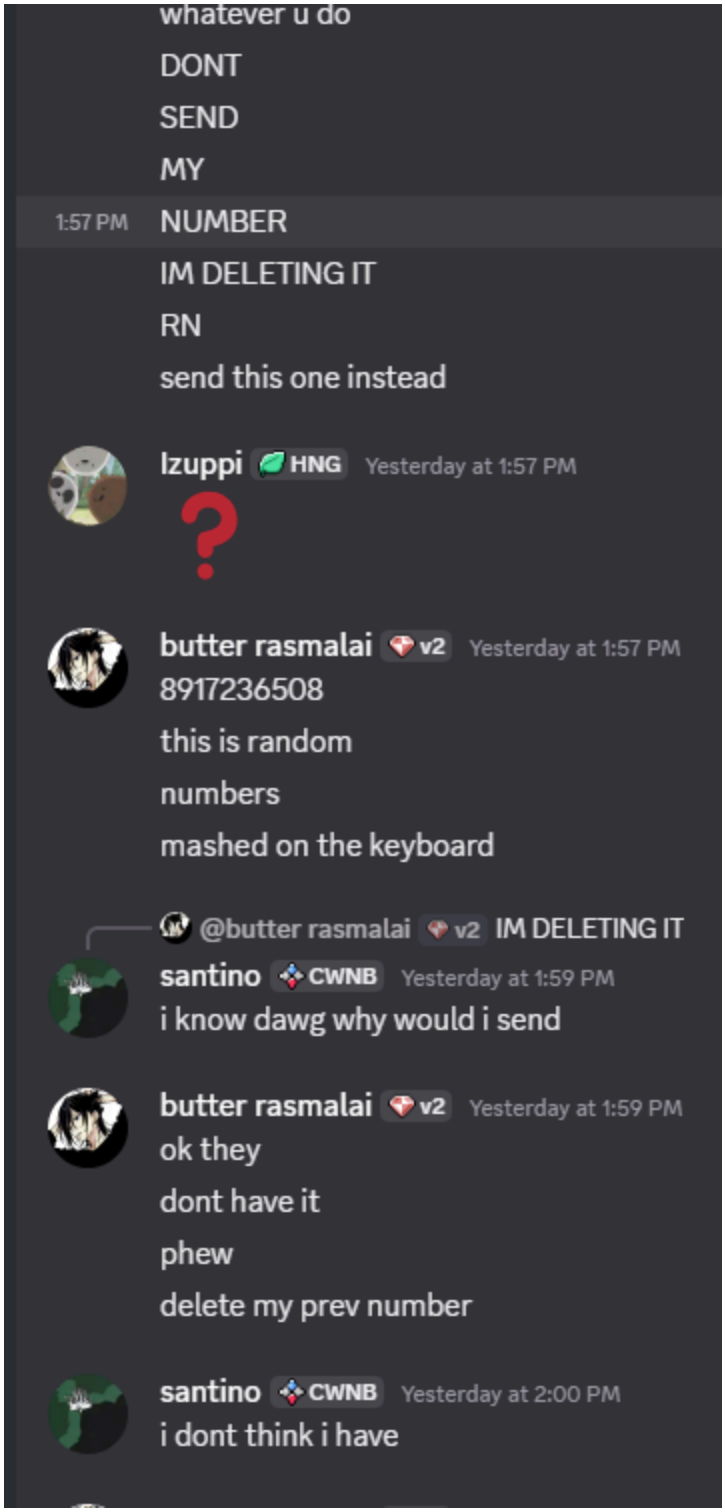
chiro DARK 2:13 PM
ur calling me a liar

FYI, the number i gave him is fake. I knew he would use OSINT since im not gullible so envix mashed a random string of numbers on his keyboard.



Izuppi A.K.A Izyan is our classmate and hes helping us, hes a massive tech guy and stuff. I also saved him from chiro's influence before chiro tried to vicitmise him.

That's all i know. Right now, im very safe. I sidetracked them into thinking random people are my parents. Idk how long they're gonna believe this tho.

(hey there, chirag here: this goofy dude didnt know the spelling but it’s OSINT)

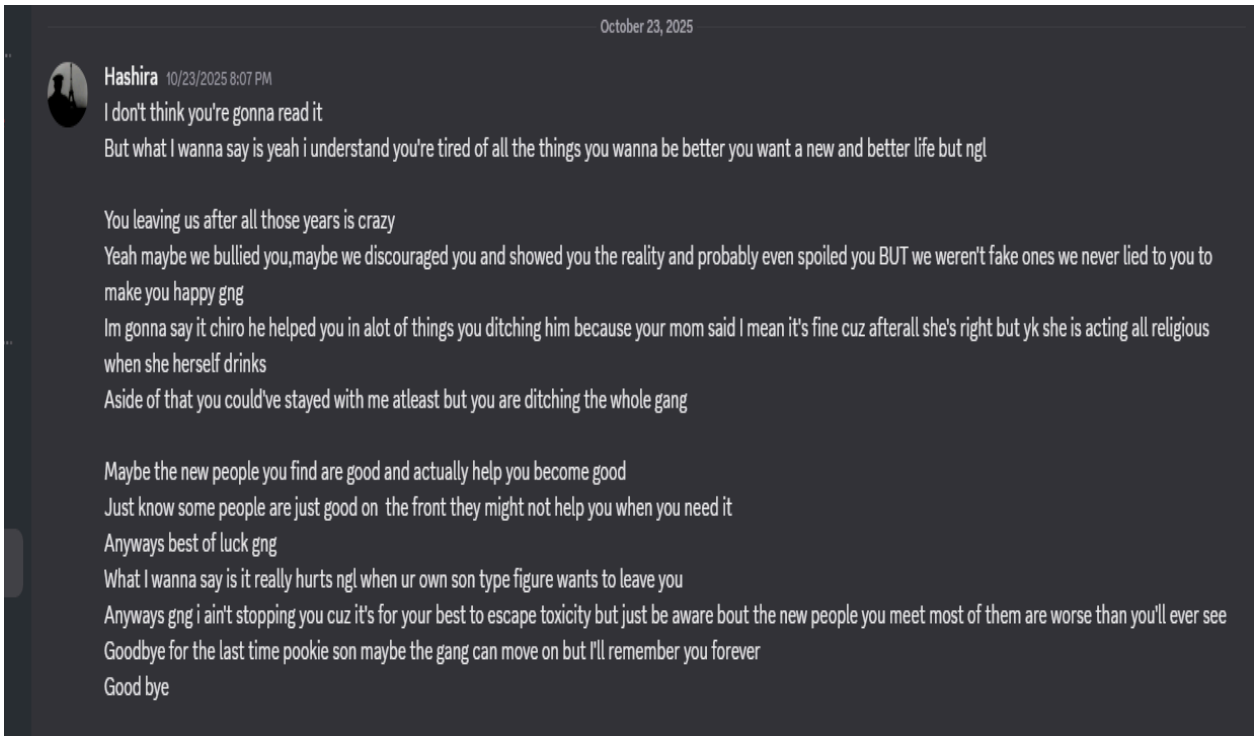
How they get info

Primarily through trust and primarily through osint. (Tysm chirag for teaching me the spelling of a 5 letter word.)

As i said before, OSINT (Open Source Intelligence) is used in a lot of doxxing tools. They recently stole this from a clan (Clans in discord are doxxing groups, a most mainstream one is AWPT, which sertan is involved in.) In 2023, i trusted them with my life. I felt like they were safe spots, so i told them everything about my life. They told me to give addresses and names and numbers incase i “lose contact” and since i was 9-10, i believed them. Until i was 11 and.. I realised a huge thing.

I fucked up. REAL BAD.

Turns out, after all the buttons clicked i learnt i was being used and extorted and while under their influence did many bad stuff. I quickly patched things with envix who had a big dispute with me, he was one of the people i did bad stuff to under their influence and vice versa, so we dabbed. At the start, i lied to them by saying my mother didnt want them to talk w me as they were saying stuff about my religion. (me and sertan used to be a father-son roleplay duo.)



October 23, 2025

I don't think you're gonna read it
But what I wanna say is yeah i understand you're tired of all the things you wanna be better you want a new and better life but ngl
You leaving us after all those years is crazy
Yeah maybe we bullied you,maybe we discouraged you and showed you the reality and probably even spoiled you BUT we weren't fake ones we never lied to you to make you happy gng
Im gonna say it chiro he helped you in alot of things you ditching him because your mom said I mean it's fine cuz afterall she's right but yk she is acting all religious when she herself drinks
Aside of that you could've stayed with me atleast but you are ditching the whole gang
Maybe the new people you find are good and actually help you become good
Just know some people are just good on the front they might not help you when you need it
Anyways best of luck gng
What I wanna say is it really hurts ngl when ur own son type figure wants to leave you
Anyways gng i ain't stopping you cuz it's for your best to escape toxicity but just be aware bout the new people you meet most of them are worse than you'll ever see
Goodbye for the last time pookie son maybe the gang can move on but I'll remember you forever
Good bye

(I made wider for quality) I gotta say, i felt bad. Until i saw he was also insulting me behind my back after i left and started a case. By then they had everything they needed. This is their primary tactic: get someone to trust and say theyre a lil bro or son. Now they have this osint tool, combine these 2 and theyre basically laundering your information. Now you might be asking, “Oh my lovely tejas the brilliant nonchalant tejas, why did you leak your information like a faucet

to these people?” As i said over 5+ times.. Trust, And i was a gullible little gremlin, always doing what others in my surrounding did. I got envix mixed up in this as hes my classmate but we go to different schools now, he trusted me, i trusted them, and they were using him. It was a behemoth of a cycle. In the middle i was forced to be against envix, but seeing our capabilities, we patched. For the sake of this document, the original document which i was forced to delete had like 3 tabs, i was a dumbass. But realising they do cybercrimes outside of bullying me, that activated so many neurons dawg, They still think im dumb which is nice for me, on ***August 15, 2026*** Independence day of india, we will be releasing this document everywhere like its the gospel. Though ppl take this unseriously, we will keep fighting **For US, For all the children out there facing our same situation, to end pedophilia. To end misogyny, Religiophobia, Racism, Sexism, Slavery, Condescend.** They actively threathen each other too.

How to evade them?

Take a look at their usernames, i will try to update all the users ik which they use everyday if they change. (Theyre listed in usernames tab)

Then, observe their profile bio status, sertan is always promoting some sort of vendor server and chiro always has clowning profiles.

Marble msot of the also uses clowning profiles but sometimes mathematical names like cubic formula etc etc

Clyde is always the same thing, “isentmyself” and “a kiss so deadly”

Always use a vpn, never give them your number, use a fake name like John Burnham or Evan Jeans, anything works.

TXC Lore (Full)

This tab is entirely about txc, It began as TØX!C, We met in the server of my closest friend and our brother, Gaming With Rosediamond, Hes a well known youtuber in the PKXD gaming community as well as one of my first friends and supporters. One day, a guy was being rude to another guy. By then me and rose were pretty close and i was a mini celebrity in his server, so i insulted the rude guy and got praised. During this, Chiro (Who was Chiro56 and XSAZyCR at the time) noticed me. He said “bros toxic 💀” Now this was in 2023, i was 9, chiro was idk. Feeling praised and shit i befriended him, he had the idea of making a team against bullies and i happily accepted it. We established toxic later that night, and on the first day we had about 50 members purely from rosediamonds server. On the first night, Ren joined. After her, Hex. Hex is just like me, he trusts people ez. We got him in and through him we got my ex girlfriend cupid, now, for the longest time, we were fine. Til about mid april. One time we needed a guy for a mission, one with knowledge about a certain guy who i forgot.. Thats when we got linx. If you read the whole document im sure you know what happened. Initially, linx was your average joe. Cringe vietnamese dude with a gojo pfp and tech knowledge. But the more embedded he got into the group, the worse he got. Around this point we barely starting using the abbreviation TXC but for a while it was TØX!C. Right before linx, rose joined. He was basically my best friend atm and i gifted him 1100 or more robux. Rose and i were a great team, while everyone squadded and absolutely molested me as “Friends” rose, me, hex, gourav (My friend from 2022) were ONE team. We were inseparable, midway, jordan AKA hex had to disappear. I forgot why but he was out of the picture, me and gourav had a big fight about ren so he was gone. Leaving me with rose, Me and rose were fighting a bit atm but we were brothers (and still are). However, during august-november of 2023, Shit starting dipping down. Linx by this point had become a pure narcissistic psycho believing bullying children is nice, so one day, we had a fight. In rose’s server, his admin Vez was saying shit about txc. So as the keyboard warriors we are we had to fight for our patriarchy and “Nation (TXC)”, We had a fight for a long time, 4 hours of keyboard spam, but midway i bailed. I was like ok fuck it i dont need this anymore, but chiro and linx had the WRONG idea, they thought i bailed because i was dioing smth to vez when i was just tired, and im not sure if linx faked this or not but he said im the reason his “dead” dad got insulted. He later admitted it wasnt true but i dont have ss of it, and im sure he was shitting me. By that time they thought i was 13, which was the SS context in influential tab. So this is when the main bullying on me started. They ditched me and took control of txc, but instead of staying with them, rose prevented me from suicide, helped me overcome my ongoing depression and sticked with me. He actively fed me info on what they saying but he got busted, I helped him with a lot of stuff afterwards; Blox fruits on roblox, he had a mini channel for that. By now txc was in shambles, I had no one except rose on my team. But chiro truced in november, And i patched it up with gourav (my brother) again! Cool tejas, whats the point now? Theres no envix theres no sertan? Theres no envix YET but sertan.. Because i truced with gourav, he had invited me to a server. It was his own and a guy he co-owned it with.. And BA TUM TSS ITS SERTAN! I met sertan through gourav, I calmly explained to sertan me and gourav are brothers and we got along pretty well, so i added him to our TXC main gc. Oh boy, Oh boy, I wish i didnt. Since linx was still with us and bullying me became a natural part of the gc + calling me a slave was also nromalised, Sertan became one of them. Kept saying shit about me, making memes off me, Treating me like a slave. But out of everyone there, he actually treated me the best. He called me his roleplay son figure, and most of the time called me his closest friend. We used to do

penguin roleplays, and he made me the penguin prince, i was genuinely happy to be treated kindly, til we had our frist argument. Theres this guy sine, hes rens bf. He and sertan became very good friends because of ren's mutuality in the group, but seeing me be used as a bully toy, he used me as a bully toy too. One day i said YO FUCK YOUR ASS BITCH! And we had a big ass argument, Then he starting involving my family and putting gore. We had a long fight and i got him kicked out the gc, ren was obv mad and broke up w him 3 days later not because of me but because he cheated on her with a 21 year old woman, But because i got sine out, sertan got ruder. I left the gc a lot at this point and i dont remember anything after that until our separation.

But now how was ren out of txc? In 2024 May, i restarted toxic. Not as a bullying server or a defense server, but as a chill safe space server. We had that disboard bot, and zuro joined. Zuro was this korean dude who made shit up for the love of the game, Apperantly he was an orphan with 2 sisters and his parents died but his uncle is an fbi agent and trained him but hes also apparently a dna hybrid guy with transformations. Im not even joking or exaggerating, he genuinely said every single thing i mentioned. (spoiler: he was lying.) Ren was gullible as fuck and eventually trusted him more than chiro, but too late! She had revealed everything to chiro! I dont know why on earth she'd give him her dad's name but rest i can understand. I mean, i shouldnt be talking either, i told them my family names because i was explaining my situations, But anyway.. So because of this everyone instinctively switched on her, but a few days later got "back" with her. Now, these people have "Plans." A plan in their terms is usually befriending someone they have bad ties with, staying with them for a couple days or weeks, manipulating them and on one day cyberbullying them. Under their influence i had to carry out a plan on ren, but ren was like an actual sister to me. She didnt have any malice when it came to me, so i snitched to her. I told her everything they were doing like a rat feeding its mother cheese. Not long after we had separated but not because of chiro or whatever but because i had carried out a plan ON ZURO, it hurt seeing a sister fade away but before i pushed her off i gave her a sense about chiro. Anyways, she herself came back carrying out another plan which we saw right through and in this gap, i had met envix. Envix is my classmate and we had many mutual interests, we befriended eachother and i added him on discord and afterwards into the gc. He fit right in, but as a.. Slave.. We both were treated like group slaves but as dumb 10 year olds we survived on each other and were guilt tripped by chiro and the gang. Envix was the first to break out of this chain, He quickly snapped but i kept bringing him back over 5+ times. And because of him being seen like a slave, sertan who genuinely lost all morals reset his phone (envix: it was my MOTHERS PHONE, and my mother blames me even now) through luring him saying They're gonna troll chiro and gave him a fake email to log in, and using google's find hub to reset his entire phone. His mother had backed up most of the images but the memories of the parrot they rescued were completely gone (alongside a year worth of photos and videos). Envix was obviously mad at me and for the 6th time had left. Matter of fact, Envix still has the dms with the account sertan used to lure him! (sertan_jee) (Proof is in tab 19), After this, i started realising our cruelty. These grown ass men use discord everyday just to ruin lives, What sicko knows this and stays? I slowly started drifting, less talking, less msgs, nlah blah blah. One day i realised, i am a human. I have fingers. I use a keyboard, i can just lie that my mother said to not be friends with them. So i did it, i said she was offended by their religion disrespect and after that everything rolled out as it is. They tried to make an alt named avni to catfish me which i

played along with, they think i got actually catfished but i alerted my girl (before she was an ex) atm. She was still brainwashed so she left me. Everything began after this, this is when doc 1 took place and died out as we only covered a few screenshots and only the parts of the present situation. And for 7 months, it was dead til june 2026, now we started documenting.

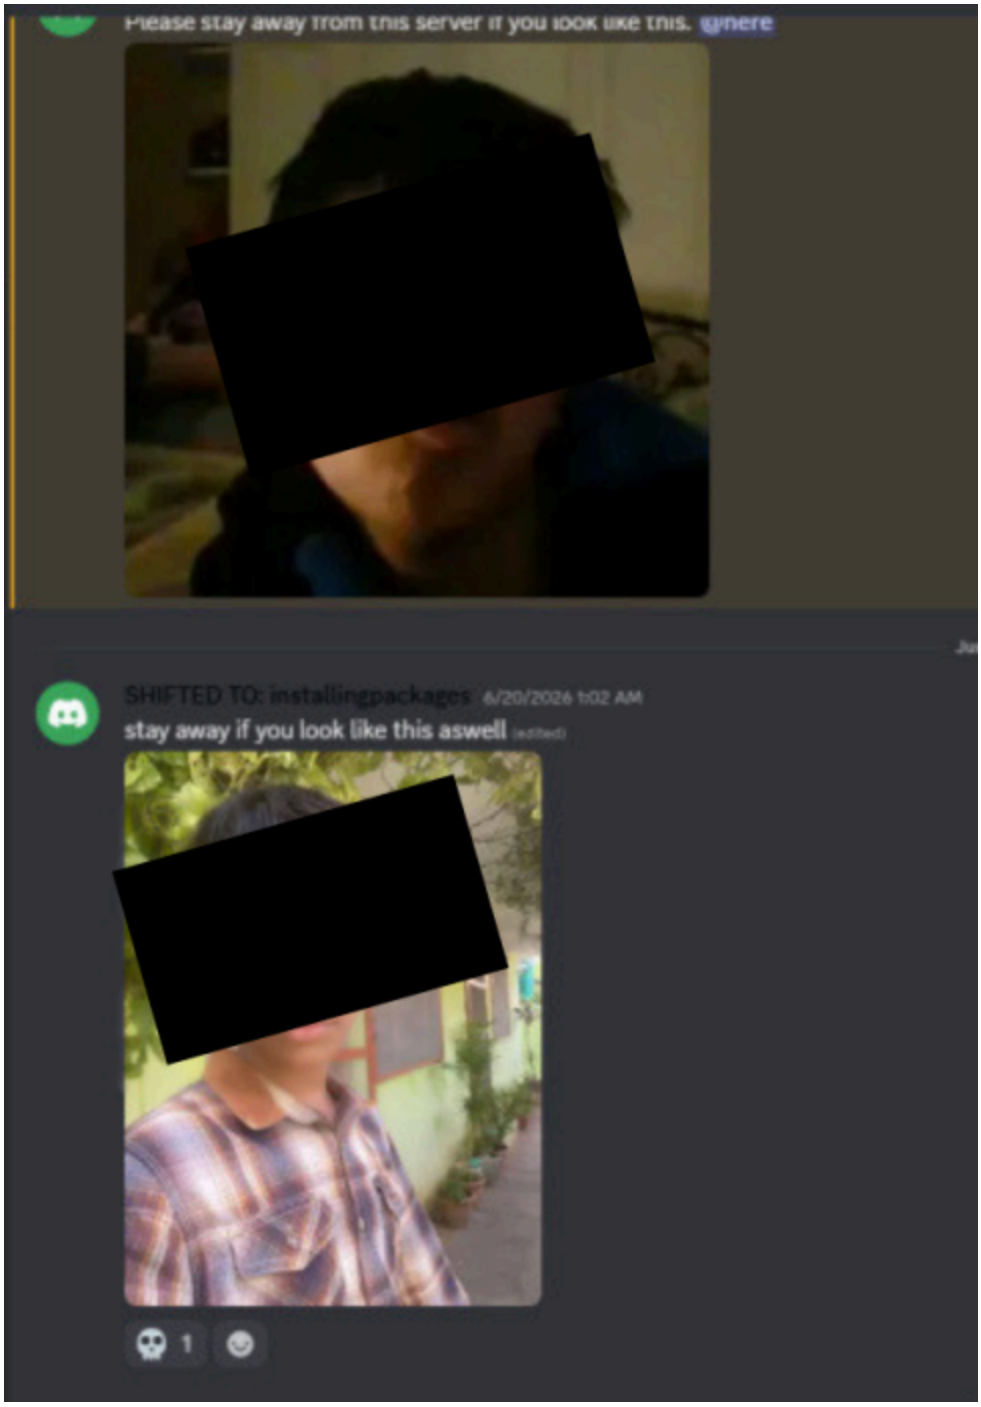
i had a file with 3.4 tb worth sent to me on tg

Im sure chiro isnt an idiot to just store in his normal gallery, it must be stored somewhere. And chiro repeatedly told hashira not to let me into vermax because “ill misuse it” and its private, so it must be their cp spot. And they also send peoples faces to bully.



Please stay away from this server if you look like this. @here

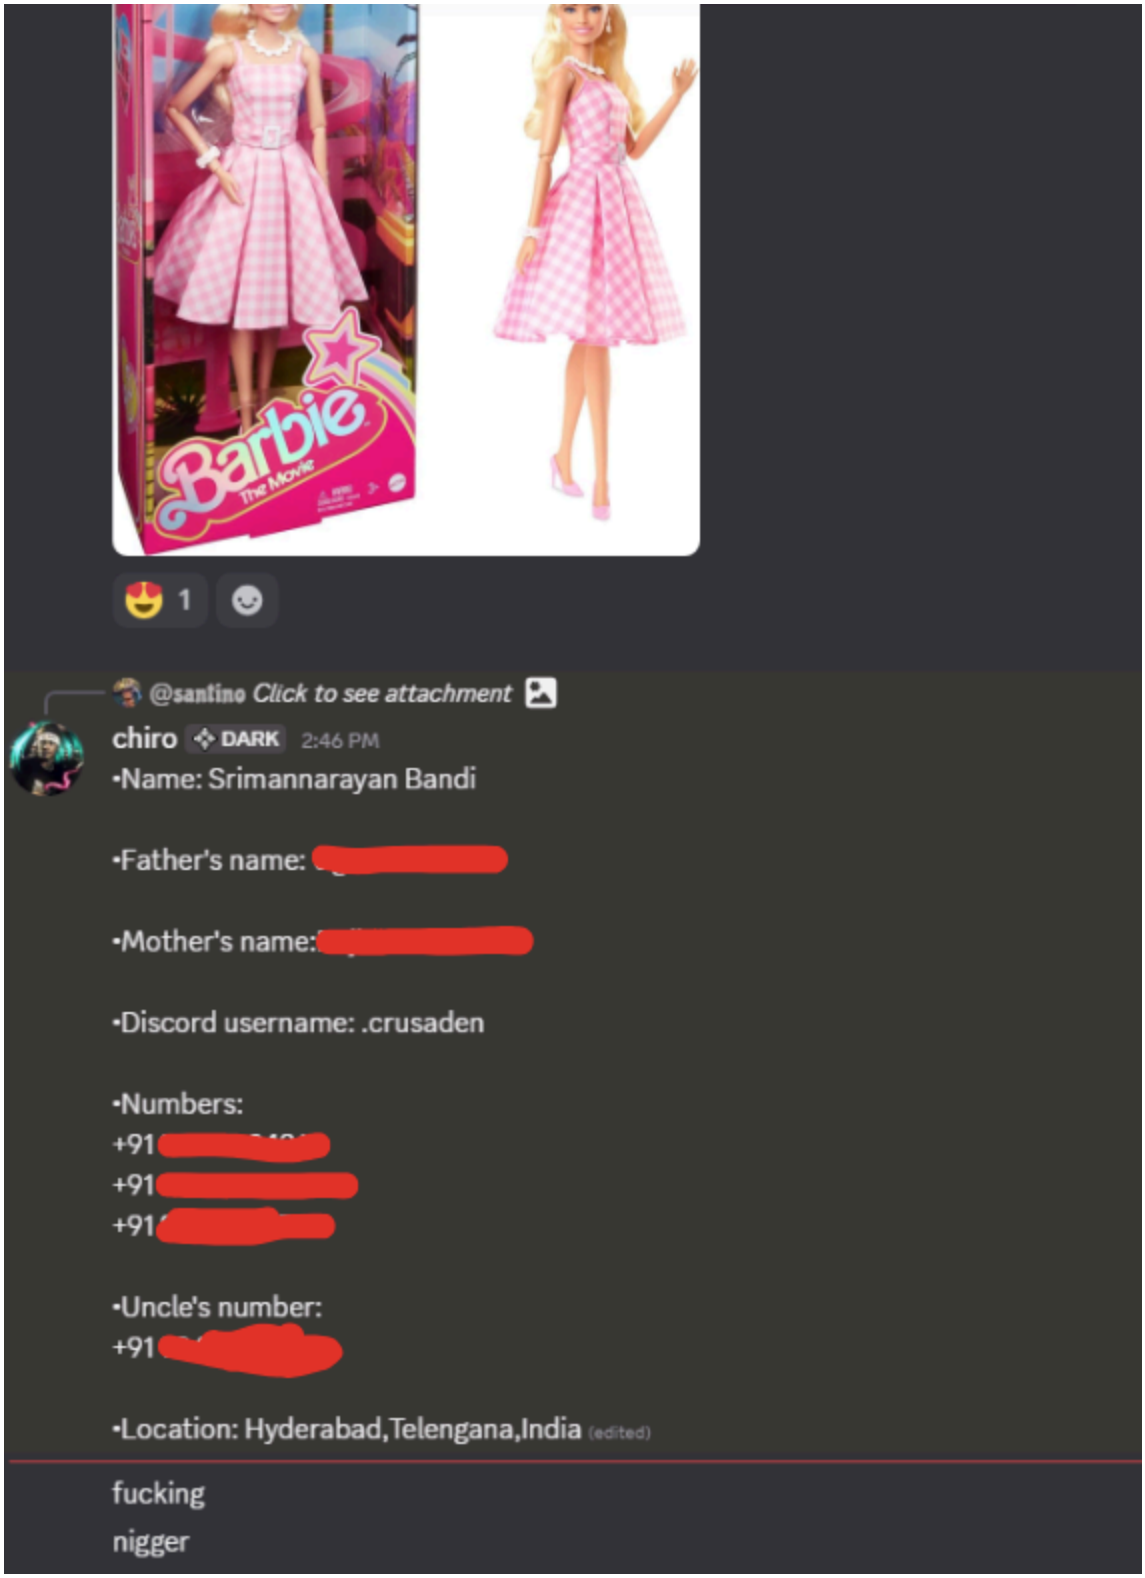
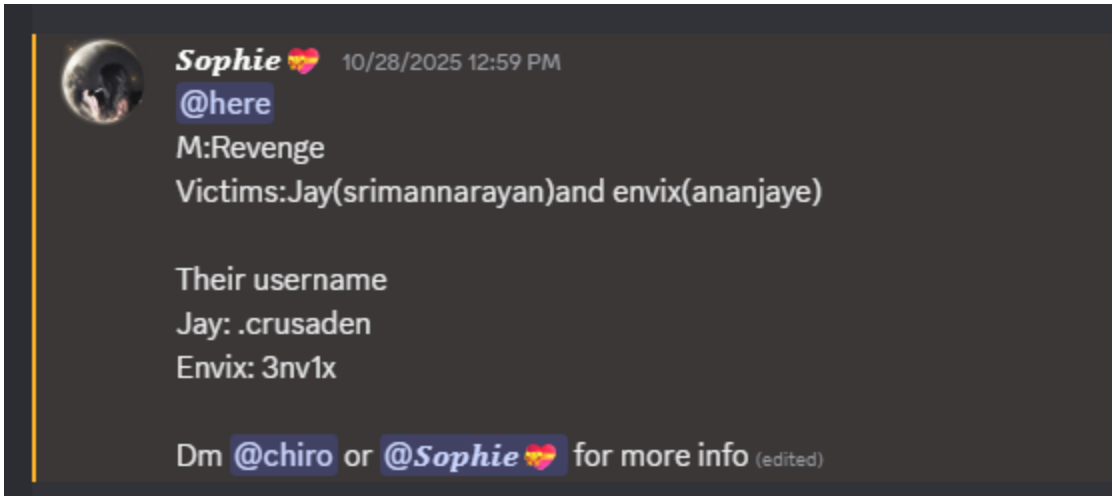
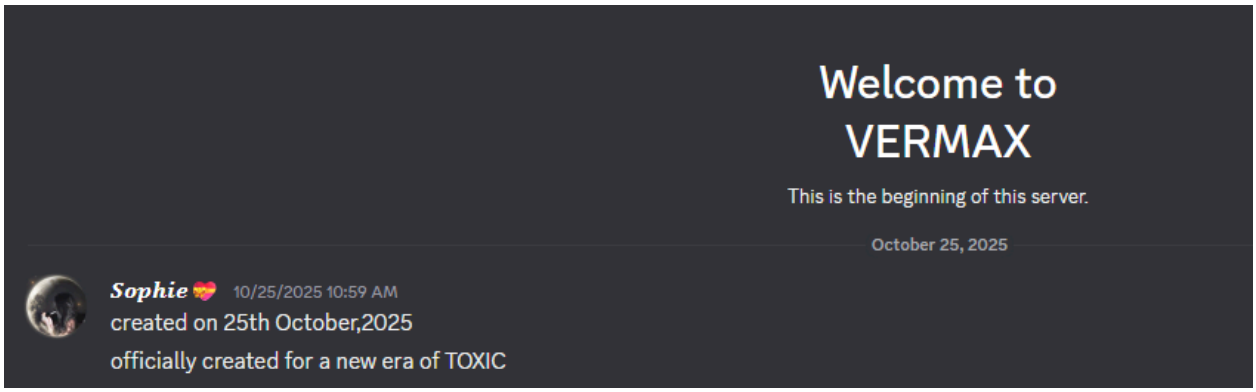
Im the bottom one.
This is not related to vermax but this does prove theyre storing information.



This is similar to the announcement they made in vermax,



Also, one more thing is, they say vermax is “a new era of toxic”



Welcome to VERMAX
This is the beginning of this server.

officially created for a new era of TOXIC

They took MY IDEA. MY TEAM and turned it into a cp hub which is for bullying underage kids.(envix: this also proves that TØX!C existed. Also sophie [sophieluvscats] is a catfish alt of sertan.)

This is unwavered pure proof of toxic’s existence.

Before this, they bullied me in the gc too!

I gotta say one thing, i got really hurt over one fact. Im the reason why this group exists, everyone met each other because of me, but in the end they all turned against me. The same people who i considered brothers turned on me. We might have to call this quits soon but they think im powerless, but im not. Justice has my back. (if youre on pc, use ctrl + mouse wheel to zoom in)

It does hurt to see the 2 puppies you loved dearly turn on you, but if the puppies had 0 love from the beginning, why should you shed a tear? You have a better life now.

It’s alright.

There is nothing more poetic than realising whatever you do ends in the same action but sorrow isnt gonna fix it. You must move on, no matter how painful it is. Life always has better plans, just follow life. Go wherever it takes you.

Mb.

That is about it for today.

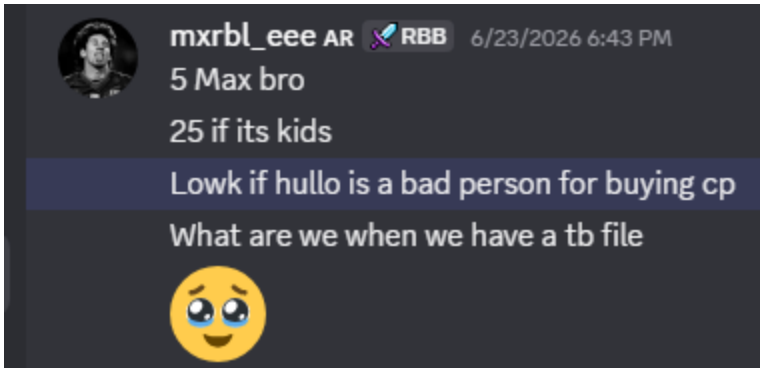
@here not related to toxic at all now,
Toxic was larp we are not.

This means theyre an official separate group, Vermax.
Which is good, in a way i guess. Toxic is something i made in 2023, it was my brand but i think my operation is ending soon. My eyes are sore as hell, nothing makes sense anymore. But when people brag about cp..



mxrbl_eee AR RBB 6/23/2026 6:43 PM

Lowk if hullo is a bad person for buying cp
What are we when we have a tb file

These scumbags keep doing shit because no one cared, everyone kept moving on because this is discord drama but genuinely NO ONE has an idea of how insane this situation is. These guys keep continuing this shit because they have power. But none of this wouldve happened if i didnt introduce one to another, im just realising i was feeling bad for genuine SNAKES. For a while i felt bad for filing cases, but ykw. Fuck it, Justice and righteousness is better than bowing down to criminals forever. Im gonna put my information and life at risk to end this bullying saga. Children deserve happiness, though i was robbed of mine, i will try my best to prevent this to happen to another child. Because i never wish this towards anyone, even my worst enemies.

Thats about it for tonight.

Good night.

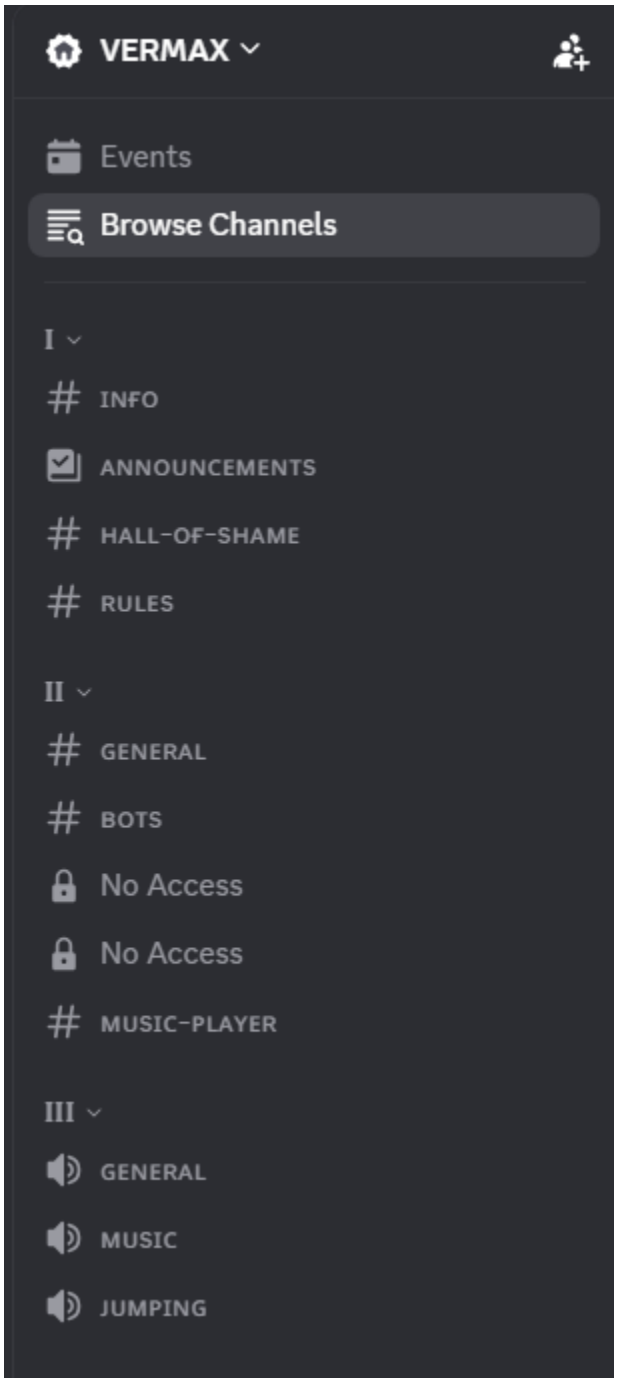
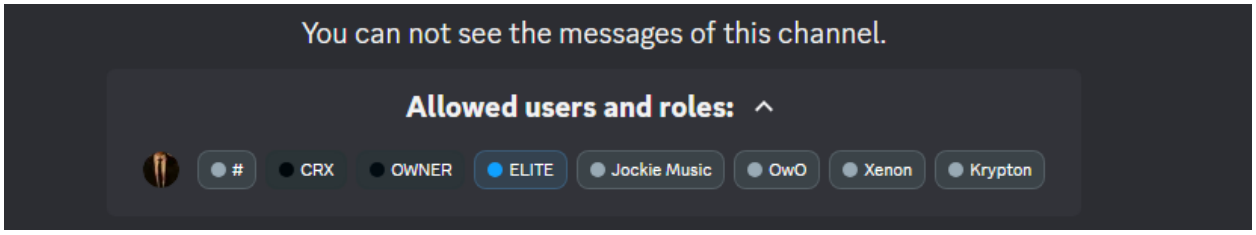
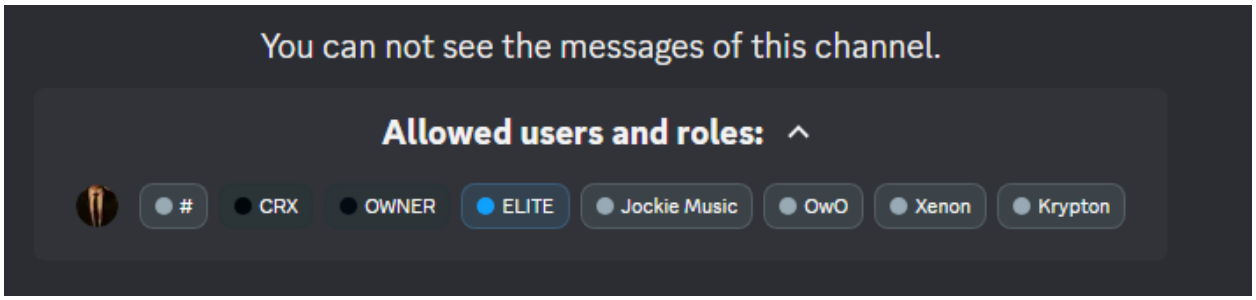
Good morning, i thought i should clarify some stuff about vermax. I used a client side tool named “Vencord” and to my suspicions, i was right. THERE ARE personal storage channels inside the server, and as it turns out they are still in contact with ren.

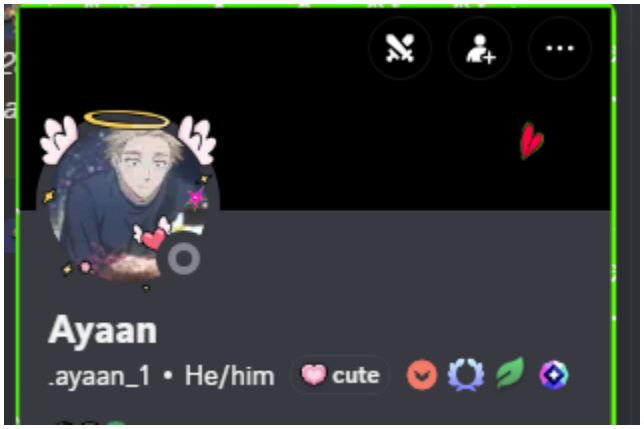


This is their server list now, as you can see, 2 channels are restricted.





And they have contact to ren through this guy.



And i found more things about ren in the server.

Im probably attention seeking.

All these days feeling bad for these incels has done nothing but waste guilt and emotion, I couldve fueled that into creativity for my novels. Chiro would often send me friendship reels a few weeks ago and that made me genuinely question the document's release. But seeing his behaviour these past few days, treating me like a last option, a slave. Not trusting me at all like a bro, i only restarted the documenting incase they do anything and im glad i did. These incels need to be called out and arrested, if i didnt do anything, more people would be victimised. Soon they're gonna extort people for money. I have the golden opportunity right now. The bow is right in my hands and my quiver is loaded, But at the same time, one singular arrow can destroy me. But you see, if i disappear *mysteriously* it will 200% be because of them. If i suddenly never return, its because of them. But, once i disappear, and im sure i wont, I know envix is gonna succeed me. We have battled many times, i insulted him many times, called him unspeakable words and vice versa, yet he stayed. He, traction, gourav, rose, izyan will avenge me if im gone. Im 300% sure on this one. The sheer pain that i have experienced is that of a level only i can comprehend.. 3 years of nonstop bullying. Every night id cry and call myself a failure, my family suffers insult because their idiotic successor has trusted. Now i dont. 10 months ago, we had nothing. We were still scared and all we documented was only what they said in that specific group. Now that i realised, no matter how long it takes, justice will be served in the form of

another instrument, not just me and envix. But right now, i am the current instrument. The past ones couldnt do anything and i have the responsibility and i am more than happy to bear it. August 15 isnt just a date for me, our ancestors fought deeply for this date. So much blood was shed in the process of independence, and me and envix will not disappoint. I will bring this situation to light with my brothers and sisters, I have a 300+ page document, the bow is already loaded in my hands. The whole world will see im not just a coward. The whole world will finally recognise me, respect me, and say wholesome shit about me. Thats all i envy for, recognition. Respect.

I keep repeating the same thing over and over again, but its to express my emotions

Have a good afternoon.

Update on 12:16 PM 7/24/2026, recently i talked about vermax being a cp storage server.. I had no sources to back it up but today i got a source.

Heres the video.

This actually proves some of my theories, that its a storage server and possibly could have cp. My explanation to it is:

Theres 2 channels that i cant access and one vc for jumping, we'll get to jumping later but why would they hide the 2 channels even tho its a private server on its own? This got me wondering so i searched everything they said about their victims. And got back to the original info leak in the evidence tab. But this time.. I saw something new, it was forwarded before i joined vermax but after i joined i found the source material for forwarding.. And when i clicked vermax, there it was redirecting me to the original inaccessible channel

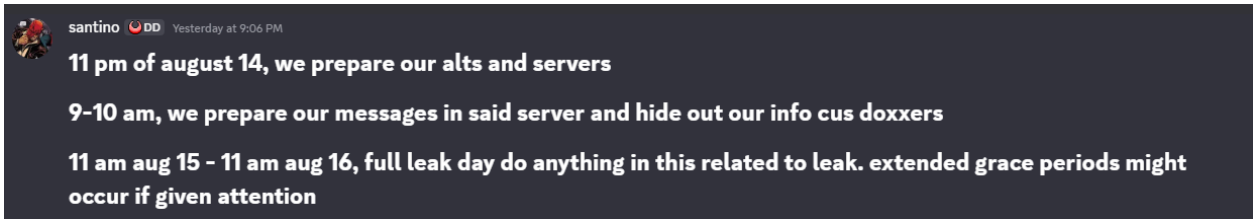
Now, im pretty sure they have a list of other peoples' info in there. How can i prove the channel isnt just for ren? First off, they have a prime agenda on ren. If they wanted to leak her information they wouldve done it publicly. Second, why would they have one other channel? Im still not yet sure what the other ones for but its probably porn storage. Third, they have a public JUMPING vc channel. Why would they have one SPECIALLY for ren?

Thats my explanation.

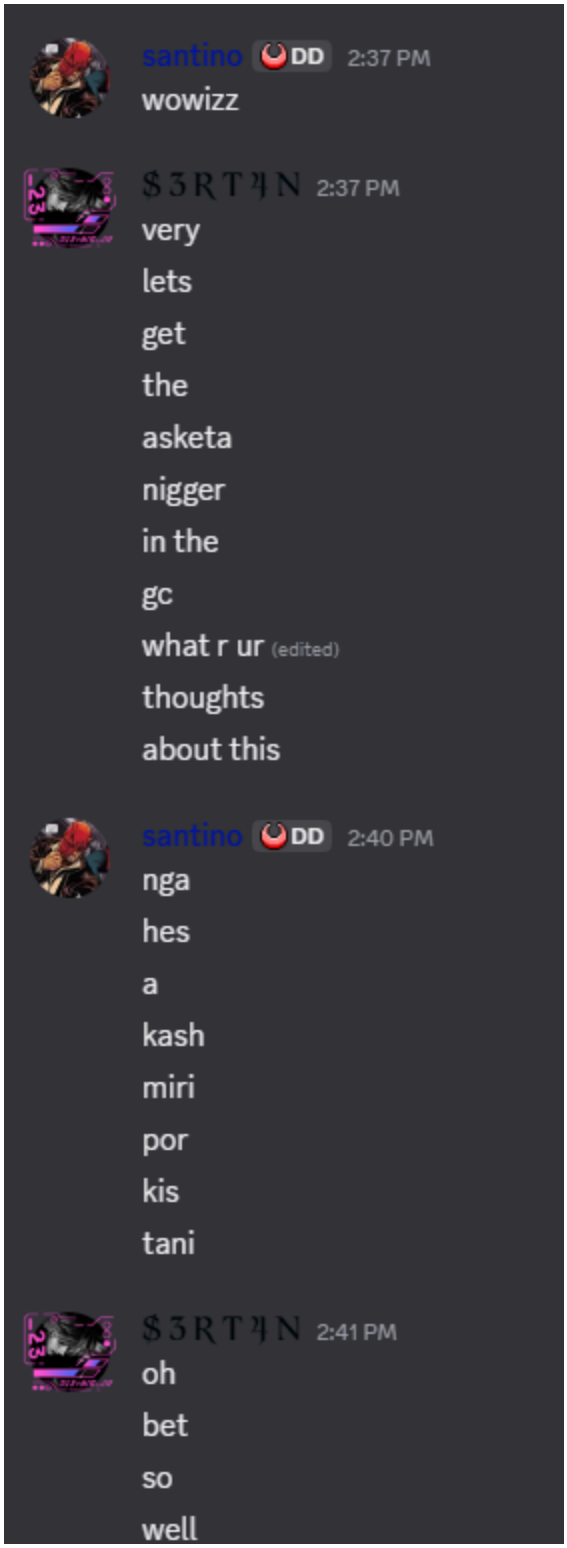
7/25/2026, 4:51 PM
This is not related to the document but i might be getting a new pc soon so expect less of my being online. The traction video has been pushed back again because traction got uncomfortable with the document. We are totally fine with this, But the leak is still scheduled for August 15.

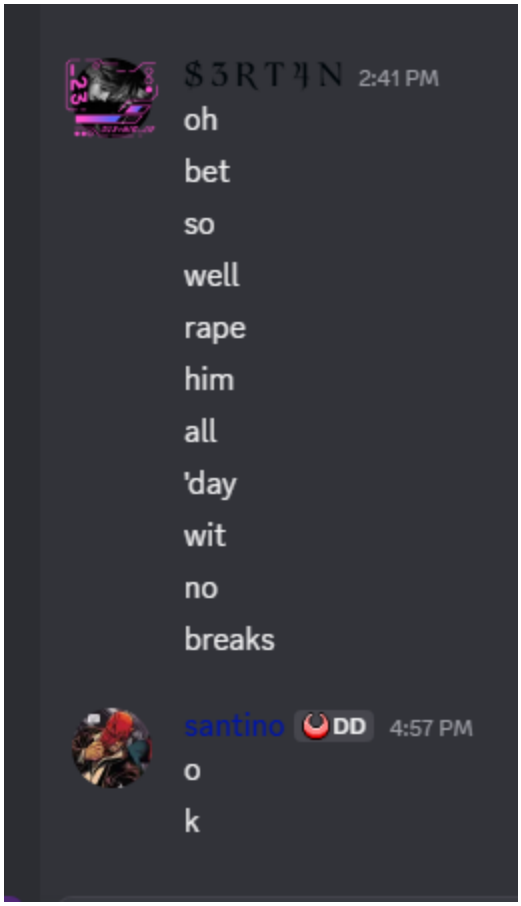


santino DD Yesterday at 9:06 PM
11 pm of august 14, we prepare our alts and servers
9-10 am, we prepare our messages in said server and hide out our info cus doxxers
11 am aug 15 - 11 am aug 16, full leak day do anything in this related to leak. extended grace periods might occur if given attention

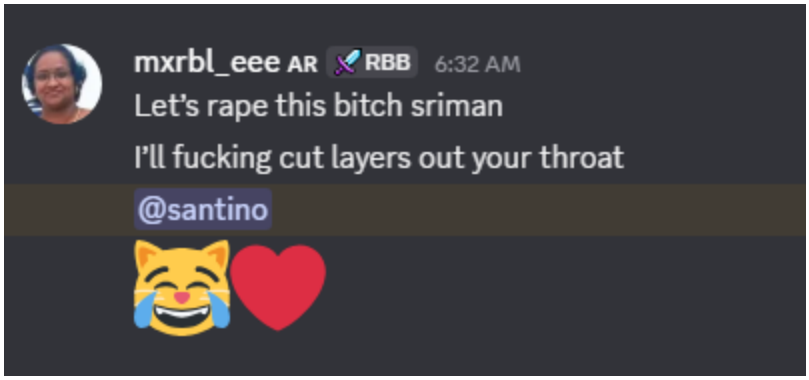
This is our plan. (Incase youre on mobile where the quality compresses, 11 pm of august 14 we prepare the alts and servers. 9-10 am of aug 15 we prepare the messages but blur our info in the doc because of potential doxxing [prolly an empty promise], and on 11 am aug 15 - 11 am aug 16 we leak, it might extend if given attention) We're gonna be joining around 200 public

servers (100 servers for 1 alt) and we wont spam. We will specifically join the ones with document upload permission. Along with that, we will be cutting contact on aug 13. At that time, we'll change all of our socials. Man i feel like daredevil. More updates will come throughout the month. Ive also made traction and envix make alts so they could be used as "Rape" victims. (This is to preserve evidence of them bullying anyone with minimum reason, i got 2gb of recordings on it.) Envix's alt, asketa is being talked about in vermax.





(they think asketa is a 19 year old kashmiri) and as per the gc stuff.. Marble is deeply obsessed with dismembering me.



And more criticism on hinduism

And more bullying me for not knowing niche memes. God forbid not being chronically online.

the thing i found in common is, both servers partnered with scythe and kaumi. Along with a “hacking server” by 1393034086066684075/really.angel. (*The Dead Angel*)
So im thinking this is a way bigger scandal. But if i join all the servers, they’ll get suspicious.

As i said, genuine idiots man.

Tejas reporting, 10:18 AM, 7/28/2026.
Been a while since i said that, anyway..

I joined kaumi, scythe, even the hacking server by dead angel. But none of them had anything related to sertan nor was sertan in those servers, he was strictly in resurgence and ascendance

Threatens, Doxx', Etc

So last night, i was on my phone. I had recently shifted my pc to another room (our architecture is a bit complicated at my grandmas house) and i was talking in the gc. Funnily enough they admitted to so much shit.

So these dumbasses just admitted to child porn selling, doxxing, leaking information, AND EXTORTING??? How dumb can a person get? Dont mind my batteries, my charger is fucked. Im planning on telling sertan's girlfriend, Tani about this. Along with chiro's crush, or old crush idk how he functions, mahi.

We might not stop documenting at august 1 and keep going for another 12 days. Its gonna be hard cutting contact without getting my shit leaked.

I might be a busy a lot these days as my pc's in another room, and ive got school, and a lot of work irl. Im trying my hardest to multitask everything as envix is busy as fuck too.

Endgame, Finale.

Our initial plan was to end documentation on august 1. We missed out on so much proof in the 8 month gap but since its 7/29/2026 rn as im writing this we cant end it on aug 1. I need to dig more. I know almost 500 screenshots of proof is enough but theres genuinely more to this, i just cant prove it. This is the final stage of our document, the finale. This is our final batch of days til the grand leak and i have to do everything i can to get to the depths of the iceberg.

This journey was truly magnificent, i will miss this once it ends. Im planning on pressing charges on them, 2 months of work will not go to waste. (even though the document originated 10 months ago in oct 2025 and the chronological order of harassment dates back to 2023, we only put work in june and july.) I'm gonna try my absolute hardest to find everything i can, and roughly polish this document before releasing. I have never been this confident. Justice is on my side, so there's absolutely zero bullshit i have to worry abt

June 5 is a crazy date for me, its the date we started planning this second edition

I never in my life thought id be capable of this, but courage and determination does something to a bullied kid. Im happy where this journey got me, im genuinely happy we met traction. Not because hes making a video or hes famous, he genuinely didnt neglect us and is actively like an elder brother. Along with daniel. And im happy me and envix got closer because of this. This journey, the friends i made and patched with, the mistakes i realised.. Im happy about it. Though it is in the finale i think the authorities might get more out of their discord accounts and social media. They messed up real bad man. Never do stupid shit in your teens.

Biting Bullets

So chiro's main, "chirownsyou" got terminated and now he's using his alt account, ricodagoat_fr (rixo) again. (888830460044640276)

Cus of this, they have a new gc as the old one which had everything is filled with inactive people or alts. Additioning the new gc, the dumbasses admit to stuff. Well it's not major stuff, of course. It's just itty bitty things such as botting followers or using nitro. You might be wondering, "what's wrong with using nitro?" You see, nitro overall isn't a problem. The problem is using it WITHOUT payment. Another question strikes, "How the fuck can someone use nitro *without* paying?!" No idea, but sertan admitted to it.

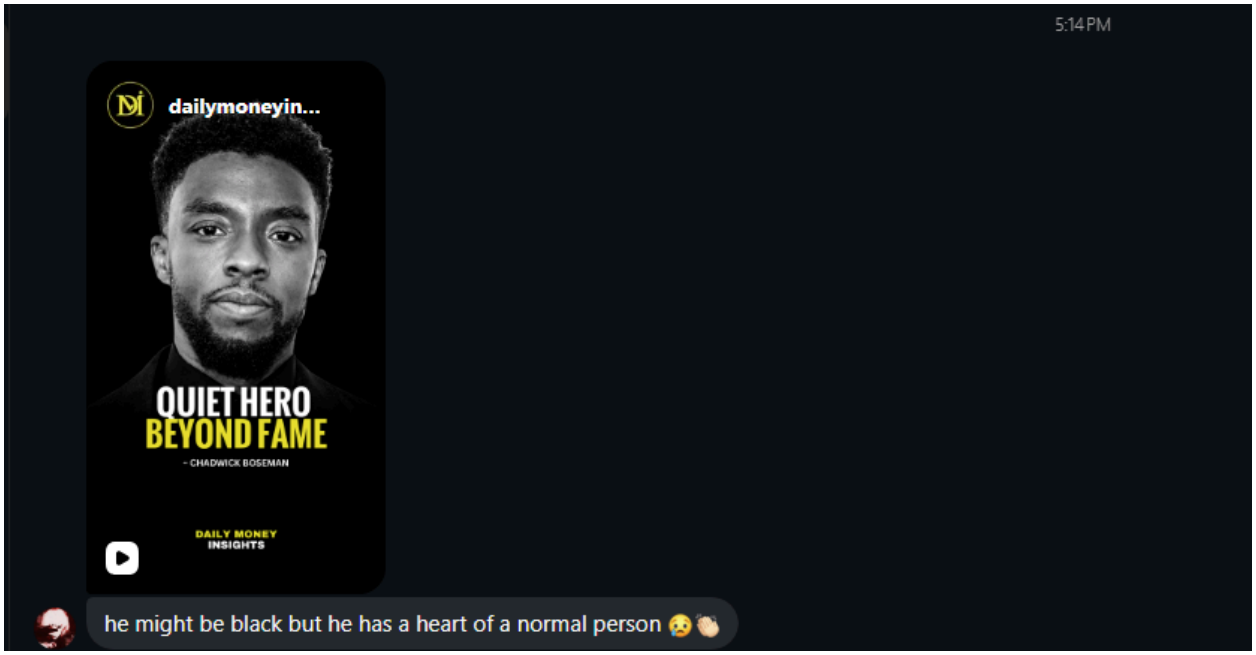
Wait.

No, you cannot sell your Brawl Stars account legally or safely under the game rules because it violates Supercell's Terms of Service. Doing so risks a permanent ban of the account, and community consensus on forums like Reddit warns that it often leads to scams. Reddit +2

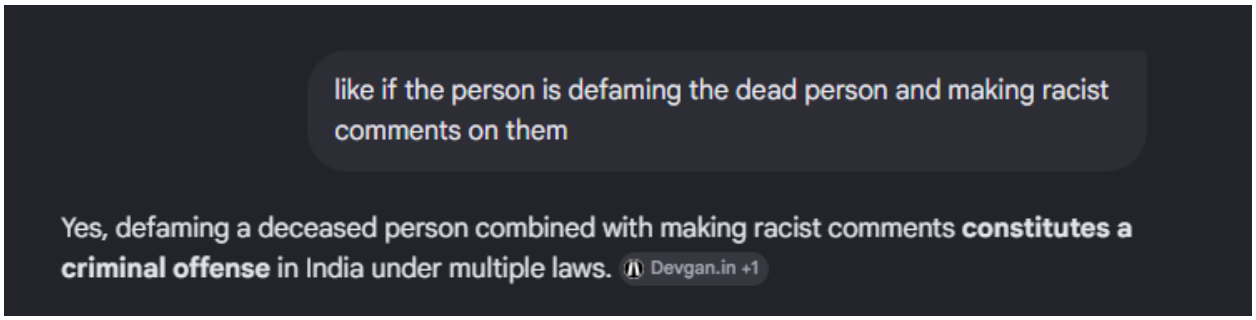
Another violation!

So he leaks my face, a minor's (without consent and even after repeatedly telling him not to) in the group chat, then loopholes it? Last time i checked, Against the fucking law.

Today he also made a racist comment on **Chadwick Boseman. Yes, CHADwick boseman. Black panther himself.**



Last time i checked?



like if the person is defaming the dead person and making racist comments on them
Yes, defaming a deceased person combined with making racist comments **constitutes a criminal offense** in India under multiple laws.

Yes, this message can cross legal boundaries into criminal territory depending on your jurisdiction, specifically as a "true threat" or a severe hate crime. While online speech rules vary significantly around the world, making explicit violent threats targeted at a specific demographic group is heavily restricted.
Here is how the legal framework treats this text across different regions:

True Threats: The Supreme Court defines a true threat as a statement where the speaker means to communicate a serious expression of an intent to commit an act of unlawful violence. Saying "rape and burn them" targeting a group can be prosecuted under federal interstate threat laws if it is determined to cause reasonable fear of physical harm. PEN America +2

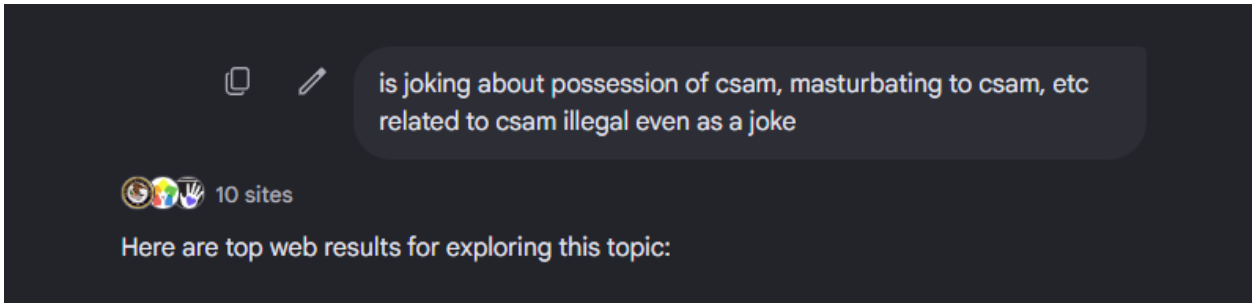
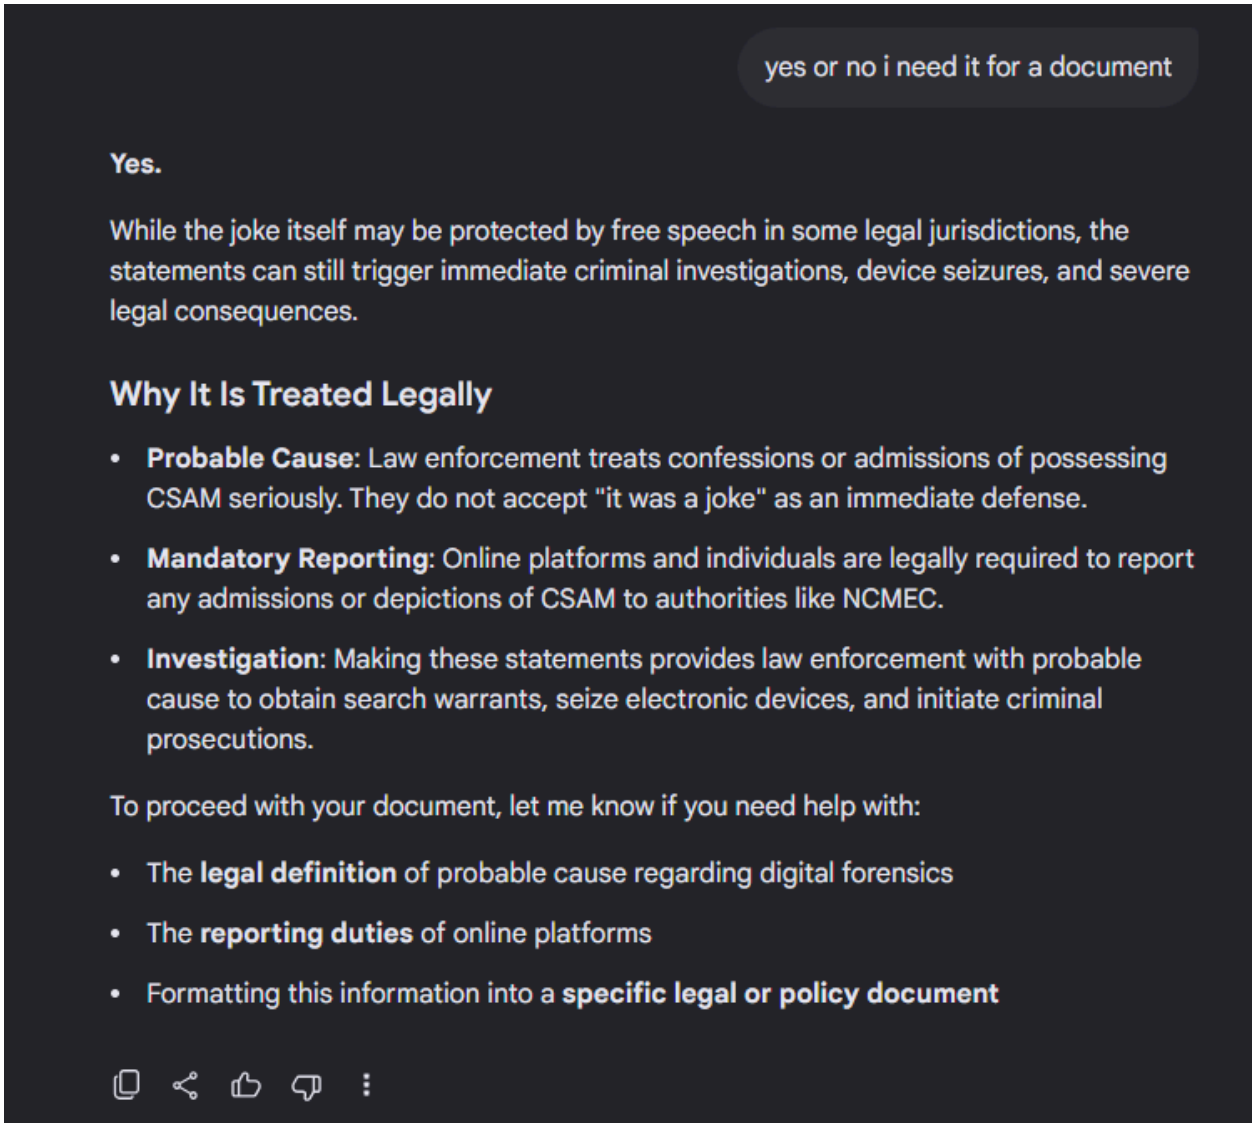
Either this is a god awful joke *(highly doubt)* or he needs serious help.

Keep in mind, even if its a joke its ***STILL HIGHLY ILLGAL!!!!!!!!***



is joking about possession of csam, masturbating to csam, etc related to csam illegal even as a joke
10 sites
Here are top web results for exploring this topic:



yes or no i need it for a document
Yes.
While the joke itself may be protected by free speech in some legal jurisdictions, the statements can still trigger immediate criminal investigations, device seizures, and severe legal consequences.
Why It Is Treated Legally
• Probable Cause: Law enforcement treats confessions or admissions of possessing CSAM seriously. They do not accept "it was a joke" as an immediate defense.
• Mandatory Reporting: Online platforms and individuals are legally required to report any admissions or depictions of CSAM to authorities like NCMEC.
• Investigation: Making these statements provides law enforcement with probable cause to obtain search warrants, seize electronic devices, and initiate criminal prosecutions.
To proceed with your document, let me know if you need help with:
• The legal definition of probable cause regarding digital forensics
• The reporting duties of online platforms
• Formatting this information into a specific legal or policy document

Google “is joking about possession of csam, masturbating to csam, etc related to csam illegal even as a joke” and see for yourself. I cant copy the ai mode convo for some reason.

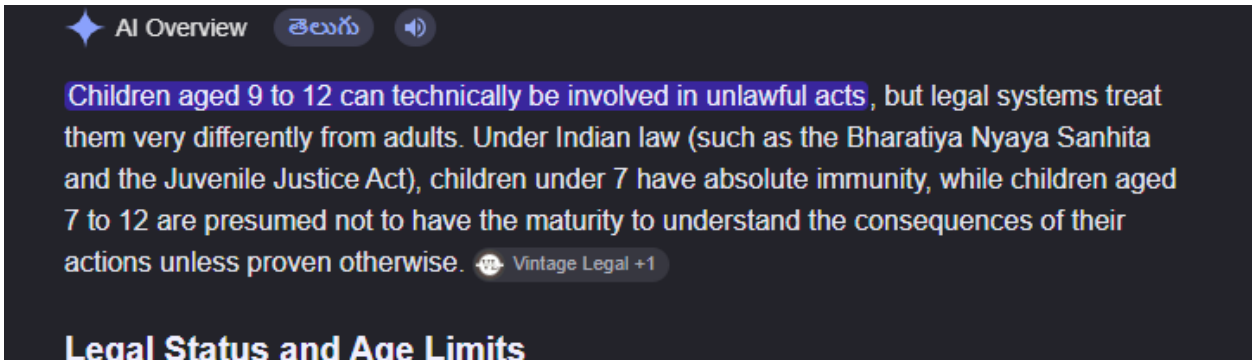
Dont mind my ping, alright? Focus on the elephant here.

This could come off as a joke but he has made several child porn drawings, Doxxed several children. Might wanna take it more seriously.

Lemme see that counter case real quick, Oh yeah i forgot they’re just larping

Also, to give you a law check any case or charges on 9-12 year olds dont go through. They only have screenshots of when toxic was a thing.



AI Overview
తెలుగు
Children aged 9 to 12 can technically be involved in unlawful acts, but legal systems treat them very differently from adults. Under Indian law (such as the Bharatiya Nyaya Sanhita and the Juvenile Justice Act), children under 7 have absolute immunity, while children aged 7 to 12 are presumed not to have the maturity to understand the consequences of their actions unless proven otherwise.
Vintage Legal +1
Legal Status and Age Limits

People in these age groups are literally presumed incapable of doing so, completely invalidating the whole point. While every single person mentioned is over 14-15.

They dont know about this second edition and all they know of is the original cyberbullying doc. The shit they did in this isnt just cyberbullying, its coordinated attacks, extortion, doxxing, MAKING CHILD PORN! Even *“joking”* about being a predator or possession of csam is still ILLEGAL!

And i will happily represent myself in court if this goes to the legal level. I believe in the power of justice and law and i will not fucking go down until these people go behind bars.

2 children doing dumb stuff (while aged 9-12 and mostly 10) vs actual cybercrimes and real life crimes is NOT even close. If i could take just these cyberbullying claims on me and shove a “counter” any person on the internet is going down.

Back At It

Good morning peeps! Its 8:37 AM here right now, 8/10/2026. 5 more days til we take justice into our own hands. This morning i woke up to some quality shit.

AI Overview

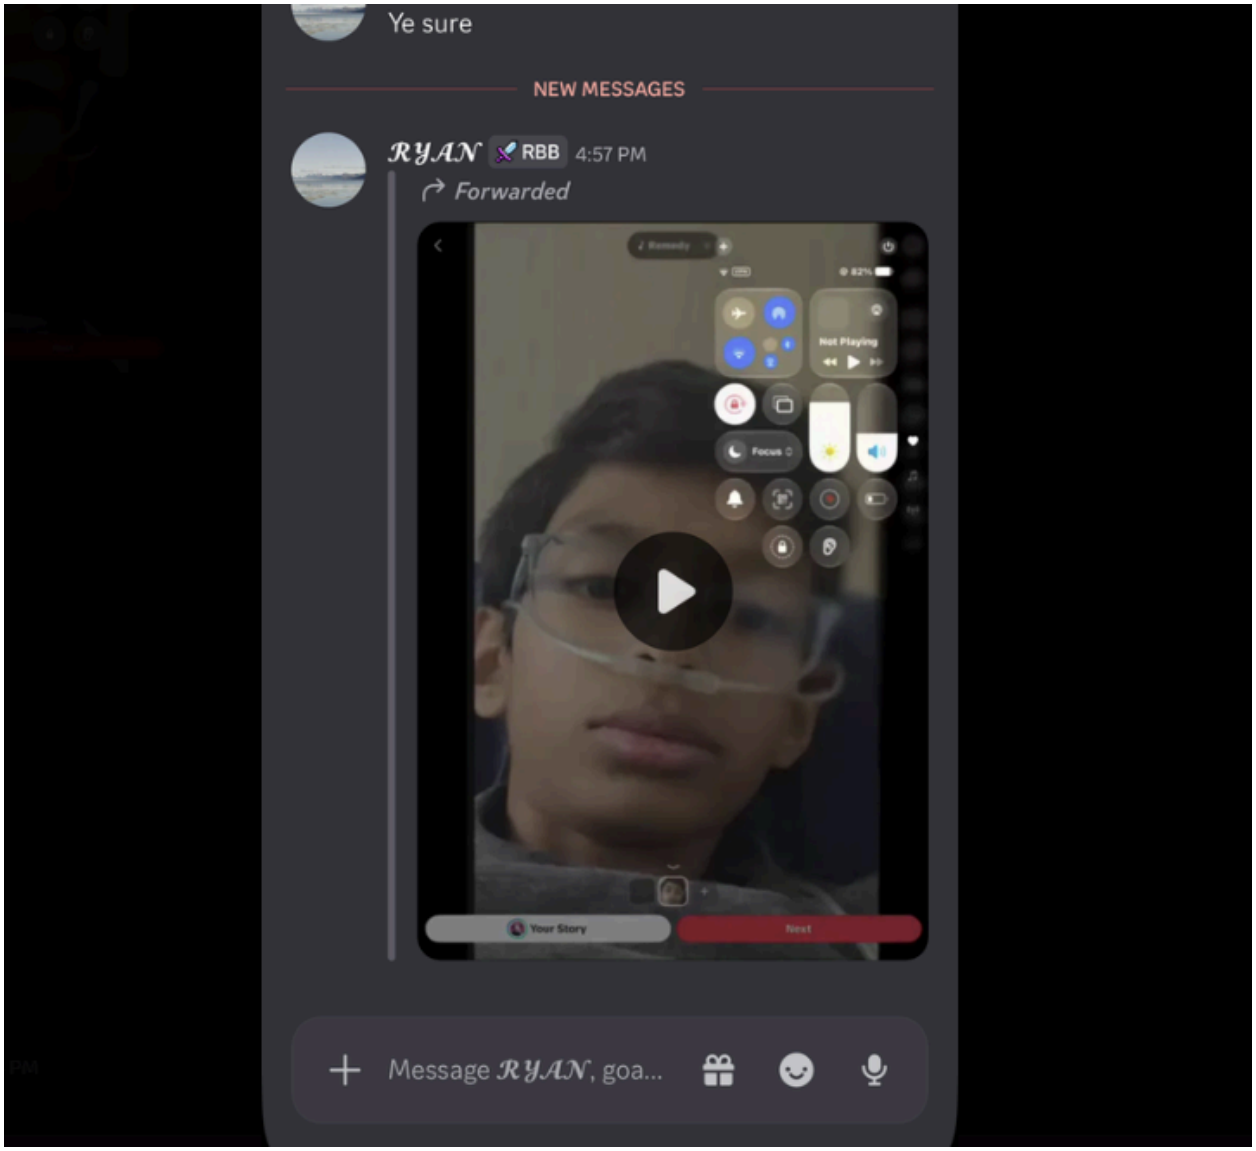
Using an account token generator in this manner is a direct violation of Discord's Terms of Service and generally illegal under computer crime laws.
Here is a breakdown of why this activity is prohibited and the risks involved:
Terms of Service Violations
Unauthorized Access: Discord strictly prohibits accessing accounts using automated means or unauthorized tokens.
Automation and Bots: Generating tokens to control user accounts (self-bots) violates Discord's Developer Terms.
Account Termination: Discord actively detects token-generating scripts and permanently bans all associated accounts and IP addresses.
Legal Implications
Computer Fraud Laws: In many jurisdictions, using generated tokens to access accounts without the owner's consent or credentials (like Gmail or a phone number) constitutes unauthorized access to a computer system. In the United States, this falls under the Computer Fraud and Abuse Act (CFAA).
Identity Theft: Accessing or creating accounts under false pretenses or using stolen data can be prosecuted as identity theft or fraud.
Security Risks
Malware: Most publicly available "token generators" or "token checkers" are actually malware (such as info-stealers) designed to steal your personal data, passwords, and Discord tokens.
Data Breaches: Operating these tools often exposes your own IP address and digital footprint to malicious actors.

That’s about it, Go to school and have some breakfast folks.

Belayu, Belayu!

I Genuinely forgot to include this one earlier. So the big M (marble) and the big G (greed) took a photo of belu, and posted it on tiktok.



(8/9/2026)
The black part is cus i snipped this from my dms with envix.

I dont know how on earth they got tiktok in india, but im guessing a vpn.
the video.
To prove that above video is legit, its an MOV file.

A bit before that i tried to persuade belu, but he made a gc with marble and greed so i lied to them and said i was trying to “butter” him up to harass him later.

Paganism and polytheism are closely linked, but they do not mean the exact same thing. Polytheism is the belief in many gods. Paganism is a broader label for non-Abrahamic, earth-based, or pre-Christian folk traditions. While most pagans worship multiple gods, some pagans do not.

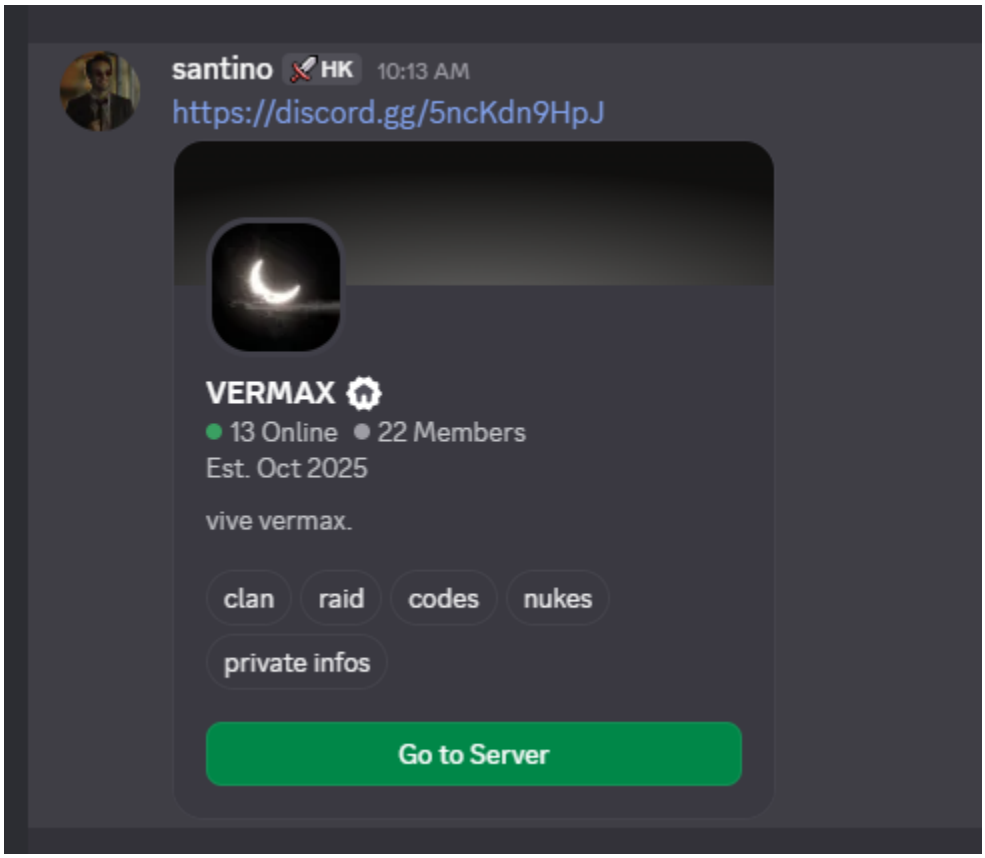
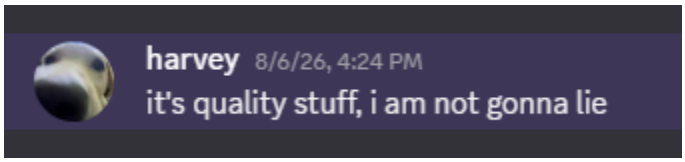
End Of The Line

After 52 days, 7 weeks, 1 month and 23 days.. (August 13, 2026.) We finally finished the documentation of this. (If we include the original document, it has been 291 days.)

The information we need has been collected and will soon go to authorities and the internet. 830 Screenshots. Thank you for reading this far, This is a document worth going higher and taken seriously. Negligence of moderators and fear of studios were reoccuring in this journey, But one thing that stood steady was our courage. Chirag is at school right now so he can't write this at 10:12 AM, But here i am, Tejas Tapala. The one who originated all this, The one who started documenting. Though tejas and chirag may not be our actual real names, these are for hiding our identity. Sure they might leak it, but to who?



Their stupid "clan raid codes nukes private infos" server? Sure they might, But god always stands with the one that is righteous. He does not stand with future psychopaths or pedophiles. They brag about upper caste or whatever and that theyre superior but whatever theyre doing literally goes against their teachings. This document is withholding hundreds of information, As "harvey" from "[RIB] Public Affairs" (Predator catching agency) calls it:



Please spread this to as many people as you can if you reached this far. Spread awareness.

A sincere thank you from tejas tapala, AKA, Jay. ♥ (8/13/2026, 10:20 AM)

Yo, envix here. So long huh. The document finally ended. Well it was about time it did. Now for my “farewell” message which jay has forced me to do.
Welp. it was a nice journey, i know for a fact that they havent changed. Not at all since i had my first fight with them ever. Even now, when i infiltrated them. I knew that they havent changed at all. But i know for a fact that they are going down, and i just cannot wait for their “counter-case” which is just us being corny as hell (like most children at the ripe age of 9-12) and they think they can “ruin” our lives when they already ruined theirs. Welp, this is the last time i’ll ever type on this document. About time we ended it.

A thank you from envix AKA raiken. ♥ (8/13/2026, 2:52 PM)

Last Minute Proof

EMERGENCY LAST MINUTE EVIDENCE

This is at 12:37 PM 8/14/2026, the documentation had finished yesterday at aug 13 but i forgot one crucial piece of evidence. They had previously posted my face on pinterest and blamed clyde alongside making 3 AI insulting videos that weren’t porn but they were insulting and weird.

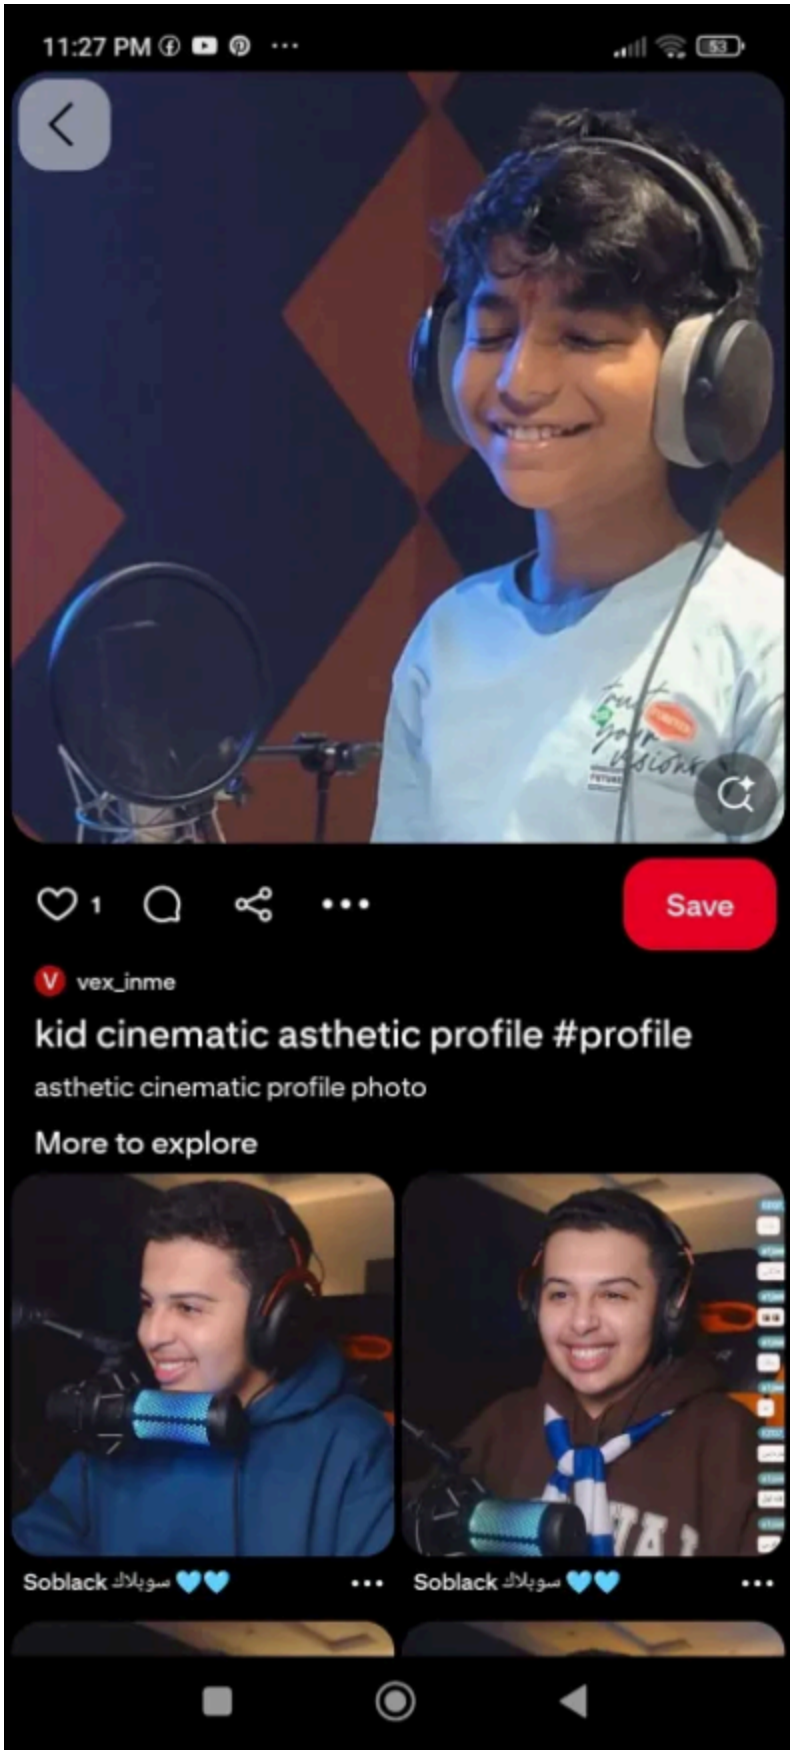
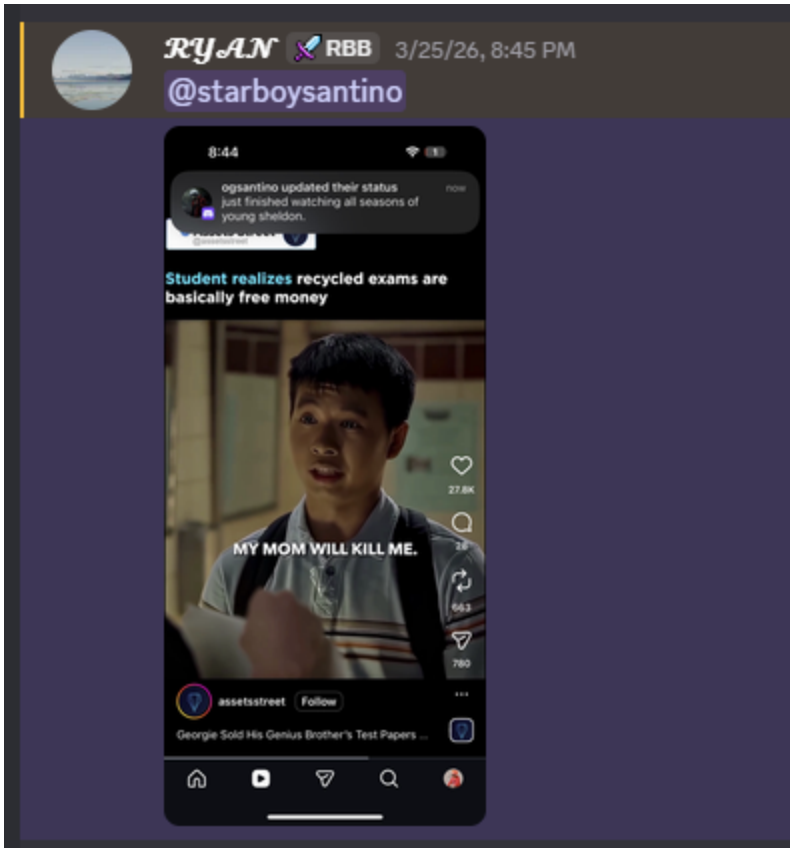
BUT ONE MORE THING I FOUND IS, CLYDE DIDNT POST THEM. SERTAN DID.

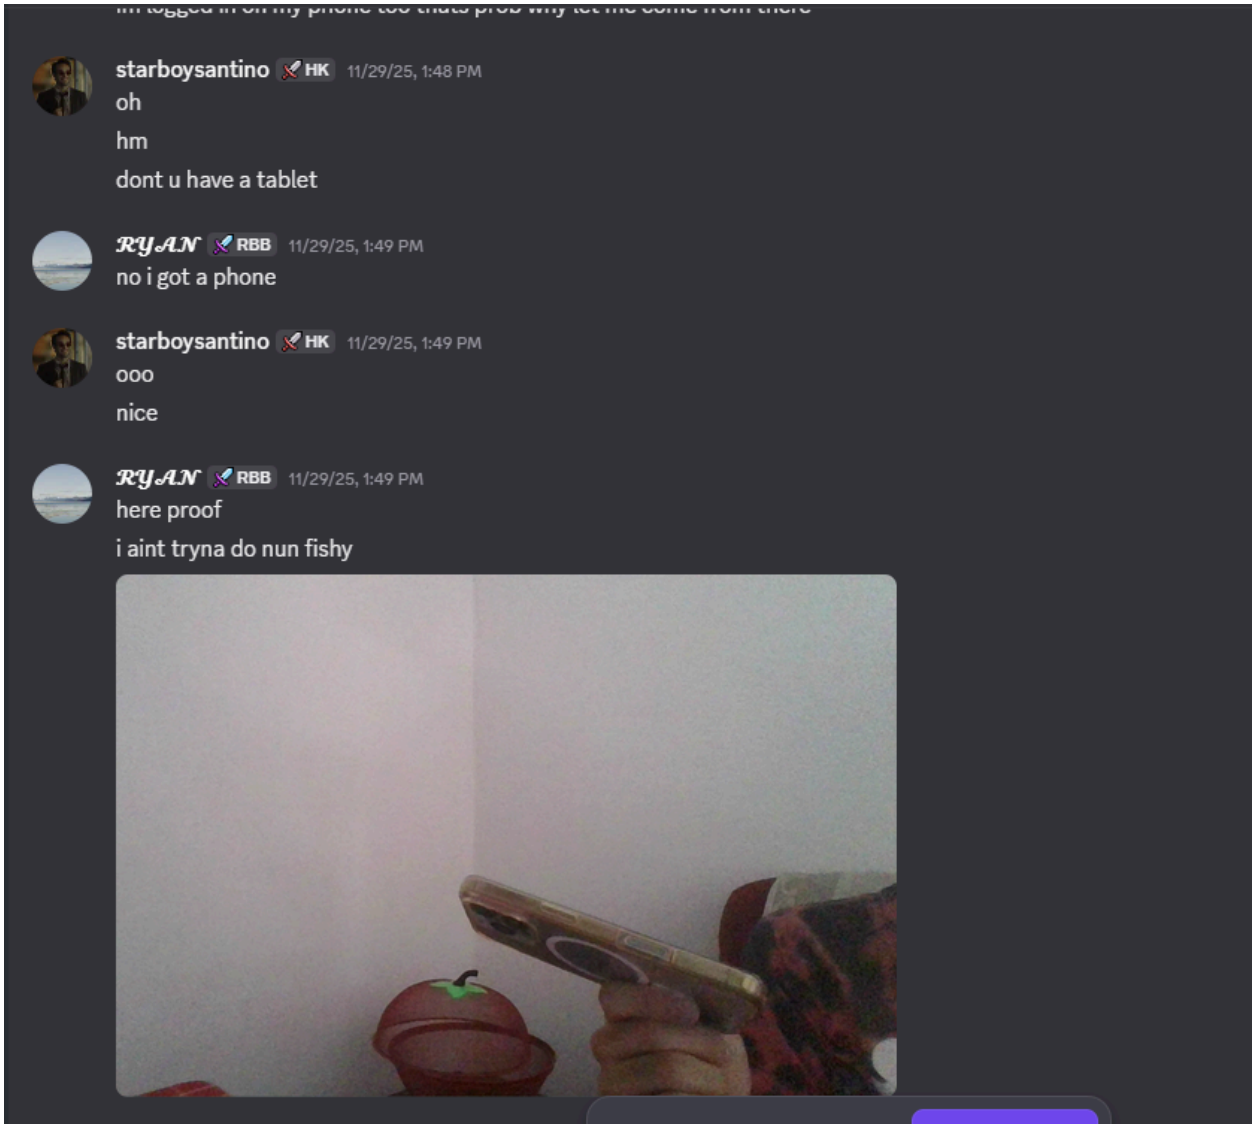


IN THIS SCREENSHOT, THE OS

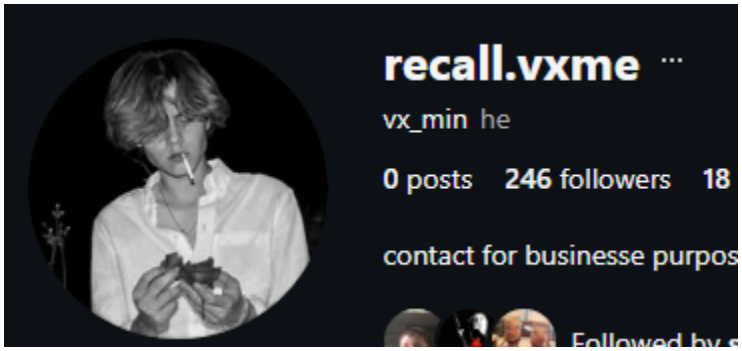
IS CLEARLY ANDROID. BUT MARBLE DOSENT USE AN ANDROID! AS SHOWN IN THESE SCREENSHOTS,



AND HERE HE CLEARLY SHOWED AN IPHONE



AS WE KNOW, BOTH CLYDE AND MARBLE USE IPHONES AS CLYDE ONCE GAVE CHIRO HIS ICLOUD EMAIL FOR CHIRO TO “HACK” AND IN THAT PINTEREST SCREENSHOT I SHOWED THERES 2 PIECES OF EVIDENCE. ONE, VEX_INME. WHICH IS SERTAN’S INSTAGRAM ID



AND TWO, THE SCREENSHOT SAYS SAVE SO ITS FROM ANOTHER PERSON. SINCE CLYDE AND MARBLE **AND** SERTAN CANT BE THE ONES TAKING IT, IT WAS TAKEN BY

CHIRO. MEANING THEY WERE FRAMING CLYDE FOR EVERYTHING CHIRO AND SERTAN DID. AND THIS ALSO VIOLATES LAWS, POSTING IMAGES OF MINORS WITHOUT CONSENT.

THIS IS A LAST MINUTE EVIDENCE, TODAY WE PREPARE THE LEAK. THIS IS AN ADDITIONAL COUNT OF CRIMINAL CHARGES.

HERE'S THE LINKS FOR THE VIDEOS THAT THEY MADE WITH AI.

(The first cooking one was made with pixverse as seen with the watermark and the second bald one was made with grok by them. Both are MOVs which prove clyde did make these but not the pinterest post, you can even see the prompt for the pixverse one.)
